Management Discussion and Analysis (MD&A)

Global Pharmaceutical Industry

During the FY 2021 – 2022, the biopharmaceutical industry continued to innovate and bring novel medications to patients worldwide. Apart from making ground-breaking contributions to COVID-19 in the form of vaccines and therapeutics, the biopharmaceutical industry has also done a remarkable job of adapting and re-focusing, overcoming many operational and organisational challenges.

Biotech sector soared during the pandemic, with venture capital investment and IPO volumes hitting all-time highs. But recently, stock valuations have plummeted as a result of being part of a larger market downturn, pricing challenges and the concern that biotech stocks are at unsustainable valuation levels.

Industry leaders believe that the business outlook for pharma companies continues to be positive. The cautious positive outlook is driven by multiple factors, key factors supporting the outlook are:

- *New therapeutics are queued up in the pipeline:* Different therapies are still in early development, spurred by advances in gene editing and cell therapy.
- *Big pharma is prospering and ready for deals:* Big pharma companies have "historic" amounts of cash on hand for deals and partnerships. Many companies have experienced growth and are emboldened with stronger balance sheets from which to invest.

- *The growing body of knowledge:* Leading to the development of new therapeutic strategies that increase treatment options and improve outcomes for patients. Many patient populations that previously were treated with nonselective agents are now receiving targeted agents that are tailored to the molecular and clinical features of their disease.

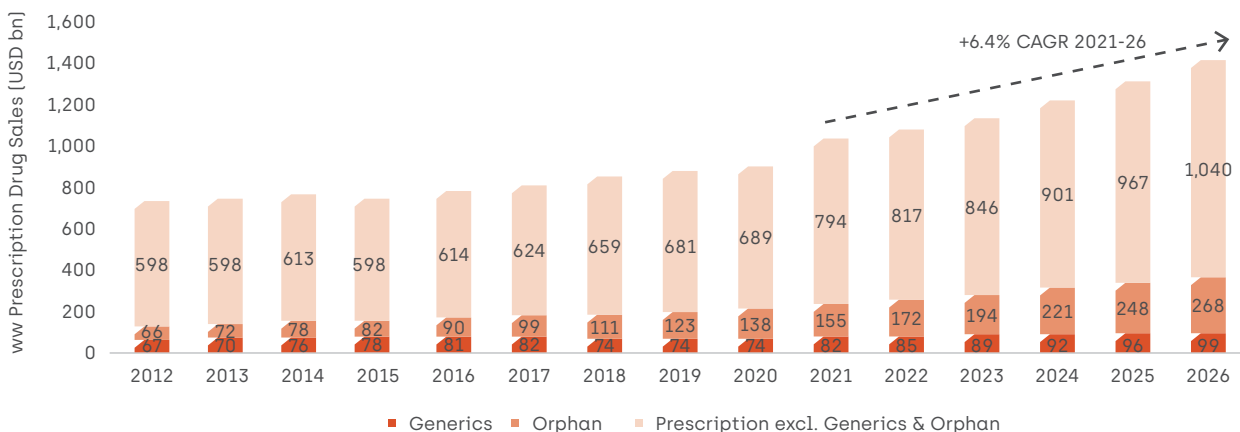

The cautious outlook has led to increase in investors selectivity for the potential investment opportunities. While the markets may ease but funding is expected to remain challenging at the same time late stage data backed companies and technology validations would continue to attract significant level of capital.

Overall, the outlook for the sector is positive and that is evident from the growth expected in the drug usage and sales for the pharmaceuticals worldwide.

The worldwide total prescription drug sales are forecasted to increase at a 6.4% compound annual growth rate [CAGR] from USD 1031 billion in 2021 to USD 1407 billion in 2026. This includes generics, orphan drugs, and other prescribed drugs.¹

The growth in prescription drug sales is backed by a pipeline of continuous development of Novel Active Substances (NASs). The USFDA designated 44 [61%] of the 72 NASs introduced in the United States in 2021 as first-in-class, and over half had an orphan drug designation, suggesting that they were intended for patients with uncommon conditions. This is an increase over the last

Worldwide Total Prescription Drug Sales¹

five years, when the proportion of approved NAs that were first-in-class drugs, stayed stable around 43%. In the same five-year period, 51% of new drugs were designated as orphan drugs.²

Orphan drugs are used to treat rare diseases, defined as less than 20,000 cases in the US. Multiple biopharma companies have focused their innovation on this area due to the abbreviated regulatory pathways in the US. Other developed countries have followed suit and enacted favorable regulatory policies, allowing for growth over the last decade. It is estimated that the orphan drugs market was about USD 155 billion in 2021 and is expected to reach USD 268 billion by 2026.¹

The USFDA [US Food and Drug Administration] kept pace on approval of new drugs, the US drugs regulator approved 58 novel drugs last year, the highest number for the last three years and well above the 10-year average of 48 novel drugs. With travel limitations blamed for decision delays in a number of cases, this uptick could presumably have been steeper under more normal conditions.³

In addition to drug approvals, during the FY 2021-2022 USFDA also made notable regulatory decisions. Some of the significant events included the acceptance of an IND [Investigational New Drug application] for the

use of CRISPR, the first human trials using gene-editing technology. The USFDA drafted guidance to improve the flexibility and efficiency of drugs under development, including how to combine multiple therapies into novel trial designs like single "umbrella" trials to maximise compatible evidence generation across medicines.

Also, the USFDA updated its advice on oligonucleotides, real-world evidence [RWE], and digital health technologies, among other areas of drug development.²

The conducive development environment has led to an increase in investment from the past 2 years, especially in the year 2021. The global Research & Development [R&D] spend is expected to reach USD 254 billion at a CAGR of 4.2% from 2020 to 2026.¹ While the bulk of this increase in R&D spend is expected to come from large biopharma companies, smaller players with cutting edge science are expected to have access to capital to support their R&D. Among large pharmaceutical companies, Roche had the largest R&D budget in 2021 at USD 16 billion [14.8 billion Swiss francs]⁴ and is expected to retain this position in 2026.¹ In the United States, the total R&D spending among major pharmaceutical companies in 2020 stood at USD 72 billion, which was approximately 21.4% of total sales.⁵

USFDA Approvals of New Drugs³

Worldwide Total Pharmaceutical R&D Spend^{1,6}

While there have been bright spots during the past year, the biopharmaceutical industry did face challenges in 2021, prominent among which were those associated with the COVID-19 pandemic which continued to loom over ongoing clinical studies in FY 2021 - 2022, albeit to a lesser degree than in 2020. The number of new clinical trial starts increased 14% in 2021 compared to 2020 due to biopharma companies successfully adapting to the new environment.² Among other factors, this is partially attributable to the number of clinical studies to test therapies and vaccines aimed at COVID-19 and the studies-start that were delayed in 2019 and 2020. The uptick is being driven by shifts to more data-driven methods across the value chain, more strategic partnerships, and digital transformation. While suspended trials did resume enrolment in 2021, many continued to experience enrolment disruptions or suspensions.⁷

Trends in the US Biopharma Market

While there was scientific advancement, market sentiment for the biopharmaceutical industry in the US was bearish in 2021 and in the first quarter of 2022. The tumultuous ride US capital markets experienced during second half of 2021 continued into 2022. Since the 2008 financial crisis, this has been the longest period of high volatility as investors remain unsure of the outlook given geopolitical concerns and inflation in the US.⁸

Volatility in energy prices, disruption of supply chains in Asia and Europe have built inflationary pressure globally. In response, the Federal Reserve announced the biggest benchmark interest rate increase in two decades. All of this contributes to rapid reduction in biopharma valuations.

It is possible that markets may ease in the near-to medium-future, it is likely that valuations will continue to be under pressure, even for companies with late-stage clinical assets that can attract capital. While 2021 was a record year for healthcare IPOs, around two-thirds of companies that went public are now trading below their issue price,⁹ further demonstrating the previously mentioned bearish sentiment and raising questions over the funding models for early biotech companies. This trend continued in the first quarter of 2022, with low IPO volume and value; six companies went public raising USD 735 million only.¹⁰

One of the possible reasons for the caution amongst investors is the lack of positive outcomes reported by the biotech companies. Per a report from Morgan Stanley, among companies with a market capitalization of greater than USD 50 million, the proportion of biotech companies reporting positive news has been steadily declining from 61% in the Q1 2020 to about 29% in Q1 2022,¹¹ a drop of 30% in a period of 2 years. There were multiple reasons for the negative data flow, chief among them being clinical holds, failure of clinical

hypotheses that held promise, and regulatory pressures on new approvals. The downside of this negative data flow is the drag-down of any potential upside from positive data.

While the number of clinical holds have largely remained stable in the past 5 years, 2021 saw a significant increase over the past years.

USFDA Clinical Holds¹¹

*Including Clinical and Partial Holds

The US stock market has reacted negatively to clinical failures, a prominent example being BridgeBio, whose stock lost 70% of value after the announcement of failure of its Phase III study in patients with symptomatic transthyretin amyloid cardiomyopathy (ATTR). Even large pharma such as Roche AG and Sanofi SA saw their stock price dragged down following announcements of their SERD (Selective Estrogen Receptor Degradar) programs missing their primary endpoints.

Regulatory pressure on approved drug class also affected investor sentiment. As an example, the black box warning of cardiac side effects for the entire class of JAK inhibitors has hurt companies and investors with significant commitment to the class. Similarly, in oncology, USFDA highlighted several issues relating to the development of PI3K inhibitors in hematologic malignancies: concerning trends in overall survival (OS) in multiple randomized controlled trials (RCTs), toxicities of the PI3K inhibitor class, inadequate dose optimization, and trial design considerations regarding the limitations of single-arm trials. The experience with this class raises a question of whether single-arm trials should be avoided as a regulatory strategy in favor of randomized controlled trials.

In line with the USFDA's push towards mandating clinical trials from the perspective of ethnicity to treat a diverse population, as well as to ensure use of comparators equivalent to standard-of-care in the United States, pressure has been brought upon drugs with single / few-country trials.

In this context, it is worth noting that while it is possible to score an approval with an aggressive regulatory strategy, it does not guarantee commercial success. The most significant example of this is Aduhelm from Biogen, which was approved by the USFDA despite concerns raised by the Advisory Committee and the subsequent restriction of coverage to clinical trials by the Centers for Medicare and Medicaid Services. This reveals the significant effort required to bring key opinion leaders and payors on-board in parallel with the registration process.

Another source of regulatory pressure on biopharma innovation has been on drug pricing, especially in the United States. While the issue of lowering drug prices has evinced interest recently, no specific legislative action has been taken, furthering the volatility. However, non-legislative actions have taken place. A key example of this is the USFDA's decision to allow interchangeability of insulin biosimilars with their branded equivalents.

Although the capital environment is not conducive to raising new capital in these turbulent times, validation of novel platforms and technologies will likely continue to attract considerable capital. Some of the areas in which the industry witnessed transactions or attracted investors include ADCs (Antibody Drug Conjugates), PROTACs (Proteolysis Targeting Chimeras), and RNA-based therapies. ADCs have recently matured as a therapeutic-class and validated by commercial success. PROTACs have garnered lot of interest as they have the potential to target proteins that were previously considered undruggable. PROTACs are expected to be the next generation therapies with blockbuster potential. There has been a boost in valuation of companies focussing on mRNA platforms reflecting optimism that mRNA technology can deliver much more than the current prophylactic COVID-19 vaccines.

ADCs comprise an antibody that recognizes epitopes on cells and delivers a payload to act on the cell. In case of oncological applications, the payloads are intended to kill cancerous cells. Thus, these function as "Trojan Horses" with the potential to target the

delivery of highly potent chemotherapeutics to cancer cells without the systemic liabilities. In the clinic, this expands the treatment window for these therapies compared to non-targeted, systemic delivery. Due to this, ADCs have blockbuster potential despite currently being overshadowed by immune checkpoint inhibitors such as PD-1/PD-L1 inhibitors. The burgeoning pipeline of ADCs in development, recent approvals, and positive data coming out of pivotal clinical studies have generated significant commercial interest from big pharma.

PROTACs or proteolysis-targeted chimera are small molecules with heterobifunctionality – to bind a protein of interest (POI) at one end and E3 Ubiquitin ligase at the other. The protein of interest thus gets tagged with ubiquitin and is shuttled through the proteolysis machinery. This approach has multiple advantages that could earn it blockbuster status. Chief among these is that complete proteolysis eliminates functionality of the protein. Weaker binding to the POI does not reduce efficacy and binding-site specificity is not as central to its efficacy as with small molecules and monoclonal antibodies. Perhaps most importantly for oncology is that by virtue of binding anywhere on the POI, the PROTAC is not affected by point mutations that may arise and confer resistance.

The COVID-19 pandemic saw a significant uptick in valuation for RNA-based innovators, due to the global immunization campaign using mRNA vaccines. This is evidenced by the increase in the combined market capitalization of the 5 listed mRNA platform-focused companies from USD 15 billion at the end of 2019 to over USD 300 billion by August 2021.¹² This represents an optimism that mRNA therapeutics can go beyond vaccines and be deployed as therapeutic interventions.

The biological process of RNA interference (RNAi), also known as gene silencing, controls gene expression by interfering with messenger RNA (mRNA). Errors in DNA coding results in incorrect mRNA, which produces disease-causing proteins. It is possible to target and destroy particular mRNA using small interfering RNAs (siRNAs). siRNA can potentially be employed as a therapy by increasing the levels of non disease causing proteins that are implicated in disease pathways. The main benefits of RNAi over small-molecule and protein

therapies are that it can block all targets, including those that are 'non-druggable'. Other types of drugs, such as small compounds and monoclonal antibodies, function downstream of RNAi therapies, which is a significant feature.

More than two decades after the natural gene-silencing mechanism of RNA interference was elucidated, siRNA-based therapeutics have finally broken into the pharmaceutical market. With multiple agents already approved and many others in advanced stages of the drug development pipeline, siRNA drugs are on their way to becoming a standard modality of pharmacotherapy. The majority of late-stage candidates are indicated for rare or orphan diseases, whose patients have an urgent need for novel and effective therapies. Additionally, there are agents that have the potential to meet the need of a broader population.

Overall, RNAi therapies have a lot of promise as a therapeutic method, potentially introducing a new class of medications to address unmet needs.

In addition to the continued validation of new modalities, the industry is also witnessing availability of funding for cutting-edge science. In the biotech sector, VC funding peaked in the first quarter of 2021 and has declined slightly since. Despite recent dips in the valuations of newly public companies and a slight decline in VC funding over the past four quarters, VC companies continue to plow money into biotech. The exuberance of these seasoned early-stage investors signals that they see the potential for significant breakthroughs in how drugs are discovered, targeted, and delivered. Start-ups with cutting-edge platform technologies—which constitute a base or infrastructure on which other therapies can be developed—have benefited the most. An example of this trend is Eikon Therapeutics which utilizes the 2014 Nobel Prize in Chemistry winning technology of super-resolution microscopy to design therapies for targets previously thought to be 'undruggable'. Their process also uses CRISPR and Artificial Intelligence / Machine Learning (AI/ML) technologies. Venture investors have responded positively enabling Eikon to raise approximately USD 660 million in two years.^{13,14}

More than two-thirds of venture capital biotech funding from 2019 to 2021 went to start-ups with platform technologies¹⁵

Increasingly, biopharma companies are employing AI/ML tools in drug development. This is an added layer of sophistication to earlier computational drug discovery resources. Traditionally, computational and modelling tools have been used across the value chain from target identification, through lead optimization, till preclinical testing. AI/ML builds on these tools and provides greater predictive capabilities. This includes predicting the 3D structures of proteins and de novo drug design. Importantly, AI can also be used to design multispecific drug molecules with polypharmacologic efficacy for a greater potency. Multiple new technology-enabled drug discovery companies are now pushing the frontiers of drug discovery. However, a critical caveat to this story is that AI-discovered drugs/targets have not yet been clinically validated.

The use of technology is also increasing in execution of clinical trials; virtual, hybrid, or decentralized clinical trials may become preferred options compared to classical trials. Virtual clinical trials utilize

technology such as electronic monitoring devices and mobile applications and seek to eliminate/reduce physical sites. In the long term, virtual clinical trials enable sponsors to reach a broader patient population, increased patient diversity, broader geographical representation, better compliance, and reduced dropout rates, all the while being faster and more cost-effective than traditional clinical trials. Another use of technology in conduct of clinical trials include the use wearable devices and smartphone applications enabling collection of vast amounts of data, not always available in the clinical setting, in real time.

Another positive disruption in the biopharma industry has been the rise of innovation in Emerging Markets. These Emerging Biopharma Companies or EBPs were responsible for half of the NASs released in the United States in 2021. In 2021, the EBPs submitted a regulatory filing to the USFDA for approval of 76 % of their originally developed pharmaceuticals, maintaining the high rate seen in prior years and demonstrating increased

independence in development and commercialisation operations.² An example of this is the USFDA approval of Brukinsa [Zanubrutinib]. Brukinsa was developed by China-headquartered BeiGene which now operates globally. BeiGene and other China based pharmaceutical companies have successfully navigated the China-US innovation corridor. This presents an attractive model for other Emerging Biopharma Companies, including those in India.

Despite a decline in overall global activity and a wariness from investors toward pre-profit companies in some industries, the biopharmaceutical sector continues to see significant levels of interest and investment. This is being driven by a number of factors, including a strong pipeline of innovative technology and new drugs in advanced R&D stages, robust demand from investors, who seek to leverage the higher returns on investment associated with the industry and the need for pharma companies to replenish their pipeline to secure future revenue. Although geopolitical factors are expected to impact the overall global market. The underlying strength of this sector is expected to promote deal making.

Indian Pharmaceutical Industry

Indian Pharmaceutical sector has been growing over the years and today ranks third in the world in terms of manufacturing volume. India accounts for about 20% of the global supply of generic medications. Indian pharma companies have become significant participants in the global market because of their high quality and low-priced products, thus making the country the 'Pharmacy of the World'. The Indian pharma industry is currently valued at USD 41.7 billion and is estimated to reach USD 65 billion by 2024 and USD 120 - USD 130 billion by 2030.¹⁶

With 60% of the world's vaccines and 20% of generic medications coming from India, Indian pharmaceutical

businesses have established a global imprint, owing to their price competitiveness and high quality.

Pharmaceutical Development through R&D in India

The Indian pharmaceuticals industry has established itself as an important contributor for the ever-growing demand for pharmaceutical products and solutions globally. However, India lacks adequate number of world class pharmaceutical R&D facilities focussed on innovative drug discovery & research.

Innovation in the pharmaceutical sector will require effective collaboration (amongst industry experts and academicians) and financial aid. According to the Brookings report, India has a mere 216.2 researchers per 1 million population as against 1200 in China, 4300 in the US, and 7100 in South Korea.²⁰

The Government of India has recently introduced many initiatives for the advancement of R&D in the pharma sector. The government has developed measures such as Bio-NEST and BioTech Science Clusters to strengthen the biotechnology sector. Four bio-clusters have been formed to bridge the gap between industry and academics in research and innovation, provide incubation space for start-ups, and catalyse R&D and entrepreneurship activities.

The Department of Pharmaceuticals (DoP) has drafted a policy to encourage R&D and innovation in India's pharmaceutical and medical device industries.

Strengthening the legislative framework, rewarding investments, and fostering a facilitatory innovation ecosystem should all be pillars in India's quest to become the global pharma research and innovation hub.

However, there are still fundamental shortages in the healthcare sector, such as universal health coverage, R&D activities, trained labour availability, rural population access to health services, and a favourable regulatory environment for manufacturers. With COVID-19, India has realised its considerable potential of what can be accomplished if all stakeholders, including industry, government, and regulators, work together. With continued efforts to innovate new products and provide quality, affordable drugs, India can rise up the value chain and genuinely becoming the world's pharmacy, both in terms of volume and value.²¹

Opportunities and Challenges

Opportunities

1. The Department of Pharmaceuticals has recently introduced a draft policy to catalyse R&D and innovation in the Pharma- MedTech Sector in India with the objective of enabling a conducive regulatory landscape to accelerate R&D and drive targeted funding, build strong industry-academia collaboration in line with global best practices, and create best-in-class infrastructure for innovation in pharma-medtech sectors. The policy aims to simplify regulatory processes to enable rapid drug discovery; to explore mechanisms to incentivize private sector investment in research and evaluate various funding mechanisms; to identify mechanisms to strengthen the R&D ecosystem through increased collaboration between industry and academia
2. The Indian Government has shown intent to reverse the brain drain with the New Education Policy, 2020. This is certainly an important step towards creating a better academic ecosystem but there is more to do to incentivize academia to build educational

environments and curricula that produce talent that are industry ready and can hit the ground running.

Challenges:

1. Limited Financial Infrastructure: India's R&D investment is significantly lower than that of other developing countries. Private finance is also essential for a country's innovation to thrive. The R&D process is lengthy and hazardous, especially in the pharmaceutical industry. Even the largest Indian pharmaceutical businesses find it difficult to fund numerous breakthrough R&D projects without external support.
2. Keeping up with technology: In the last several decades, technology has advanced at an incredible rate. There is a need to not only keep up with evolving technologies but also be at the forefront of embracing new ones.
3. Limited Incentives for R&D: There are limited schemes /incentives for the R&D segment in India compared to other developed nations. This hinders the growth of the pharma sector.

SPARC's Response to Global Trends

SPARC is currently focused on a narrow set of problems in three therapeutic areas. Our endeavor is to narrow that further so that we increase our depth and effort on each of the problems we focus.

The key objective for SPARC in the near term is to complete the current clinical trials to deliver the next set of catalysts. Our recent successes in biologics promise a potential platform play centred on a set of antibodies targeting Muc-1 α/β junction. We are also exploring additional assets on the platform, most notably multi-specific immunofusions. SPARC will continue to invest in several critical competency areas

to fully leverage the competitive advantages of its operating model. We intend to move cautiously given the demands on our resources.

In step with global trends, SPARC has pivoted to adopting new technologies and modalities across the developmental value chain. Over the past years, SPARC has built expertise in computational drug discovery, bioinformatics, and AI/ML. As an example, our machine learning capabilities enables us to predict pharmacokinetic properties of candidate drug molecules. In parallel with building internal capabilities, SPARC collaborated with technology-driven companies such as Schrödinger and Hitgen. In 2021, SPARC collaborated with One Three Biotech, an AI

company, to understand the mechanistic underpinnings of a key enzymatic pathway in oncogenesis.

In the discovery stage, the Company has built robust capabilities in biologics with the ability to create modular platforms of immunofusions and antibody-drug conjugates. SPARC's transition to antibodies and conjugates provides SPARC with a unique advantage of being able to develop both small molecules and large molecules in-house, which only a handful of R&D focused companies possess. SPARC's foray in biologics will expand the playing field for SPARC.

SPARC's continued efforts on external collaborations has led to building a mature process to source innovative assets from both academia and biotech companies. SPARC has engaged multiple US academic centres for joint development programs targeting novel biology in the area of oncology, neuro-degeneration and immunology. During FY 2021 - 2022 SPARC progressed on multiple collaborative projects and also acquired exclusive rights for antibody against a unique oncology target from Biomodifying Inc.

SPARC's initial efforts on NDDS based programs have led to early success with multiple programs approved/ filed and SPARC is well poised for next inflection point with read outs from the key studies for the NCEs under clinical development expected in next 12 – 18 months.

SPARC's Operating Model & Performance Overview

During the year 2021-22 the Company completed the pipeline transition towards novel biology and has built a multi-modal toolkit. Throughout this transition, our mission has remained consistent: to continuously improve standards of care for patients globally through innovation in therapeutics and delivery. SPARC's portfolio now comprises several high-value first- and best-in-class opportunities at various stages of development.

Overall, SPARC has built a mature R&D organization with capabilities across the value chain, and an attractive portfolio with multiple high-value assets.

The FY 2021 - 2022 continued to provide validation for our business model. Following the positive readout from Phase 3 studies for our ophthalmology programs, SPARC successfully licensed the commercialization rights for PDP-716 and SDN-037 to Visiox Pharma, a specialty pharma company focused on ophthalmology. Additionally, SPARC in-licensed the worldwide rights to a novel antibody against a unique target expressed

by a variety of cancer cells, bearing the promise of a platform therapy across modalities: multi-specifics, T-cell engagers, and antibody-drug conjugates (ADCs).

While lab operations of SPARC resumed in earnest in 2020 and continued in 2021, COVID-19 continued to impact enrolment for our clinical studies. In FY 2021 - 2022, SPARC continued to put in place measures to improve enrolment and ramp-up patient recruitment in FY 2022 - 2023.

Our clinical studies in six indications continue to ramp-up and recruitment is underway. Our lead asset vodobatinib is currently being tested in early-stage Parkinson's Disease (PD) and late-stage refractory Chronic Myeloid Leukemia (CML). Sun Pharmaceutical Industries Ltd. (SPIL) continues to advance vibozilimod (SCD-044) through Phase 2 studies in two indications – psoriasis and atopic dermatitis. A Phase 1 study in healthy volunteers was completed for SCO-120, indicated for the treatment of metastatic breast cancer.

During the year we raised USD 148 million with participation by our promoter group and other marquee domestic and foreign institutional investors. SPARC received INR 278 Cr (~USD 37 million) being 25% payable on application, balance 75% i.e. INR 834 Cr (~USD 111 million) to be received within 18 months upon conversion of warrants by investors. The available cash from conversion of warrants will be sufficient to cover the cost of ongoing clinical studies.

Additionally, to advance our pre-clinical assets and to augment our pipeline we had obtained shareholder approval at the last AGM to raise an additional sum upto INR 1,800 crores (USD 240 million). The Company also has a line of credit of INR 475 crores (~USD 63 million) to meet any interim funding requirements

Progress on Key Programs

1. Elepsia™ XR

SPARC had licensed the US commercialization rights for Elepsia™ XR 1000mg and 1500mg to Tripoint Therapeutics. Under this agreement, SPARC is eligible to receive tiered royalties ranging from 15% to 50% of net sales.

The commercialization of Elepsia™ XR commenced in 2021. Tripoint completed the field launch meet and training of the sales team. There are now 40 representatives actively promoting Elepsia™ XR in the United States.

2. PDP-716 for the treatment of open-angle glaucoma

PDP-716 is a novel, once-a-day formulation of brimonidine developed using SPARC's proprietary TearAct™ technology. The previously concluded Phase 3 study demonstrated functional equivalence of PDP-716 and Alphagan® P 0.1% dosed three times-a-day in reducing intraocular pressure.

SPARC licensed the global [excluding India and greater China] commercialization rights to Visiox Pharma with eligibility to receive upfront payment, milestone payments, and royalty on sales. Additionally, SPARC received a 10% equity stake in Visiox Pharma [subject to regulatory approvals].

During FY 2021 - 2022, SPARC closed out the Phase 3 study and recently had a pre-NDA meeting with USFDA. The outcome of the pre-NDA meeting was positive and Visiox Pharma along with SPARC plans to submit a NDA in FY 2022 - 2023.

3. SDN-037 for the treatment of pain and inflammation following ocular surgery

SDN-037 is a novel, twice-a-day formulation of difluprednate developed using SPARC's proprietary technology. The previously concluded Phase 3 study demonstrated patients receiving SDN-037 achieved an Anterior Cell Chamber [ACC] grade of 0 [zero inflammation] versus vehicle alone, with p value <0.0001. SDN-037 was generally well tolerated with adverse events consistent with those generally observed with difluprednate.

SPARC licensed the global [excluding India and greater China] commercialization rights to Visiox Pharma.

Visiox Pharma is working with SPARC for NDA submission of SDN-037.

4. Phenobarbital Sodium for the treatment of neonatal seizures

Phenobarbital injection is the current standard-of-care for neonatal seizures but is not approved by the USFDA for safety, quality, or effectiveness. Critically, the marketed formulation of phenobarbital contains benzyl alcohol as a preservative, which is known to cause "gasping syndrome" in neonates.

SPARC has developed a benzyl alcohol-free formulation of phenobarbital for treatment of

seizures in neonates. It was granted an orphan drug designation by the USFDA. During FY 2021 - 2022, SPARC submitted a NDA to the USFDA for approval of its formulation of phenobarbital. SPARC is in discussion with potential partners for licensing the commercialization rights of phenobarbital.

5. Vodobatinib for the treatment of CML [SCO-088]

Vodobatinib is a novel, highly-selective c-Abl inhibitor for refractory CML. The pivotal study is recruiting patients who have failed 3 lines of treatment including ponatinib. In FY 2021 - 2022, recruitment for this study was impacted as multiple ponatinib using countries were still facing COVID-19 related issues. SPARC continues to take steps to improve recruitment rates.

During FY 2021 - 2022, SPARC presented the results of the ongoing study at the 2021 ESH and ASH Annual Meetings as an oral presentation. This was the second consecutive year of SPARC being selected for an oral presentation, demonstrating the hematology-oncology community's belief in the promise of vodobatinib.

Vodobatinib continues to demonstrate durable long-term response across Phase 1 cohorts, with 68% of enrolled patients continuing on vodobatinib after 1 year and ~47% continuing treatment after 2 years from treatment initiation.

SPARC expects pivotal study data readout of SCO-088 in FY 2023 - 2024.

6. Vodobatinib for the treatment of neurodegenerative diseases [SCC-138]

Vodobatinib is being investigated for multiple neurodegenerative diseases and is a potentially first-in-class disease modifying treatment.

The Phase 2 study in Parkinson's disease [PROSEK] is currently recruiting patients and over 65% patients are randomized. This study was impacted due to COVID-19 related lockdowns and SPARC continues to work on ramping up recruitment. SPARC aims to complete the patient recruitment by the end of FY 2022 - 2023 and the topline readout from this study is expected in FY 2023 - 2024.

An additional Phase 2 investigator-initiated study is also recruiting patients with Lewy Body Dementia at Georgetown University, Washington D.C.

7. Vibozilimod for the treatment of autoimmune disorders [SCD-044]

Vibozilimod [SCD-044] is a selective S1PR1 agonist in development for autoimmune disorders.

SPARC previously licensed the global rights of vibozilimod to SPIL which is recruiting patients for Phase 2 studies in Psoriasis and Atopic Dermatitis.

8. SCO-120 for the treatment of HR+, HER2- metastatic breast cancer

SCO-120 is a novel, orally bioavailable, SERD for the treatment of Hormone Receptor positive [HR+], Human Epidermal Growth Factor Receptor 2 negative [HER2-], metastatic breast cancer. During FY 2021 - 2022, SPARC completed a Multiple Ascending Dose [MAD] study and a Food Effect study in healthy volunteers. A Phase 1 study in patients has been initiated and the study is expected to begin recruitment in H1FY 2022 - 2023.

Outlook

SPARC's portfolio has multiple mid-stage assets in oncology, neurodegeneration, and immunology with significant commercial promise. Additionally, our robust translation engine has the potential to accelerate the advancement of novel therapies from the lab to clinic.

In the near-term our focus will be on execution, we will work with our partners to drive the uptake of Xelpros™ and Elepsia™. Additionally, we will be working closely with Visiox Pharma for the submission of NDAs for the two ophthalmology programs in H1FY 2022 - 2023. We have submitted the NDA for phenobarbital in FY 2021 - 2022 and expect that this program will be partnered in H1FY 2022 - 2023.

For our NCE programs in clinical development we will continue our efforts for ramping up the patients recruitment rates. In the medium-term, we are working on moving two additional programs to first-in-human Phase 1 studies. Our hunt for new programs – both from internal ideation and external partnerships – will continue to augment our pipeline.

In the mid to long-term, our pivot towards NCEs, NBEs, and complex modalities for targeted delivery, has the potential to create greater value. We continue to aggressively build new capabilities to support this transition to higher-value opportunities.

Human Resource Strategy

Strategic human resource management is the foundation of a strong business. At SPARC, a young dynamic team of promising and talented employees, work relentlessly to pursue SPARC's business plans. With high focus on the Sunology values of Innovation, Initiative, Passion and Humility, the HR of the Company is aligned towards hiring, developing and retaining highly proficient talent and works to provide an inclusive environment that is welcoming to all across diversities. The HR department continuously benchmarks best practices across the industry - in the areas of Talent Management, Learning & Development, Performance Management System and Employee Care. This is done with the objective to provide highest levels of employee experience and keep its workforce motivated, knowledgeable and progressive, aligning employees with business goals. The team continuously works towards improving processes and takes initiatives to align our people processes with the changing business requirements to create a culture of continuous learning and innovation. To enhance its R&D capabilities, the Company regularly collaborates with some of the top Indian universities and training institutes and imparts skill development trainings to its employees and prepare them according to the change in business strategies. Effective communication platforms are used to foster transparency and create open forums for discussions to address concerns.

As on 31st March 2022, the Company has a dedicated team of 403 employees [Across India and the US], of which 85% are scientists.

Risks and Concerns

Company's R&D activities takes it on new roads and paths but the core focus is to adhere to risk tolerance thresholds. The Company may be affected by risks and uncertainties related to product development, regulatory approval, patent and proprietary rights scope, market competition, technological advancements. Foreign exchange rate variations can also affect sales, profitability, and cash flows. As a result the Company works hard to identify important risks and adopt mitigation strategies to lessen the impact on the operations of the Company.

Internal Control Systems and their Adequacy

The Company maintains adequate internal control systems commensurate with the size, nature and complexity of its business operations. These controls are

regularly tested for their adequacy and effectiveness by internal as well as external auditors of the Company. Further, the Audit Committee reviews the audit reports for each quarter and monitors the implementation of auditors' recommendations.

CONSERVATION OF ENERGY, TECHNOLOGY ABSORPTION AND FOREIGN EXCHANGE EARNINGS AND OUTGO

I] CONSERVATION OF ENERGY

Power and Fuel Consumption

Our processes are not energy exhaustive. However, the Company undertakes actions to optimize the use of energy and has taken measures to minimize wastage using the latest technology and equipment.

Few examples of energy conservation are chilled water based cooling system in staff room and conference rooms, Chemical less water treatment for cooling tower operations and Vacuum degasser in chilled water system which Prevents air-locks and cavitation and Increases heat transfer efficiency.

II] TECHNOLOGY ABSORPTION

Research and Development

1. SPECIFIC AREAS IN WHICH R&D IS CARRIED OUT BY THE COMPANY (SPARC)

SPARC's R&D focus is on developing novel chemical entities, novel biological entities and reformulations of existing products to address the unmet medical needs of the patients. The products developed are commercialized in multiple markets including US and India.

The current therapeutic focus of the Company is in the areas of oncology, neurology and immunology.

The Company out-licenses the products to partners for commercialization activities and generates revenue from royalty on sales, upfront payments, regulatory and sales based milestone payments.

i) New Chemical Entities (NCE)

a) Neurodegeneration

- SCC-138 is being evaluated as a potentially disease modifying agent for treatment of Parkinson's Disease. SPARC initiated a multi-center, proof-of-concept Phase 2 study in patients with Parkinson's Disease (PROSEK trail) and the trial sites are across US, Europe and India.

- SCC-138 is also being evaluated for the treatment of Lewy Body Dementia. The trial is being conducted as an investigator initiated study.

b) Oncology

- SCO-088 a potent, orally active and highly selective Bcr-Abl Tyrosine Kinase Inhibitor (TKI) being developed for treatment of Chronic Myeloid Leukaemia (CML). Part C of the study was initiated in patients failing 3 lines of treatment including ponatinib.

- SCO-120 is a novel, orally active Selective Estrogen Receptor Degradar (SERD) being evaluated for the treatment of HR positive, HER2 negative metastatic breast cancer patients. Phase 1 study has been initiated to assess the safety of the drug and also to establish the recommended phase 2 dose.

c) Immunology

- SCD-044 is a S1P Receptor 1 agonist which was developed in collaboration with French biotechnology company Bioprojet for autoimmune disorders. SPARC has licensed the worldwide rights of SCD-044 to Sun Pharmaceutical Industries Limited. Phase 2 studies have been initiated for Psoriasis and Atopic Dermatitis.

ii) Novel Drug Delivery Systems (NDDS)

a) Wrap Matrix™ Technology

Wrap Matrix™ technology is useful to develop controlled release tablets that have high daily dose requirement and drugs that have high solubility. Once-a-day dosing can be achieved using this technology.

Elepsia™ XR [levetiracetam ER 1000 mg and 1500 mg] was developed using Wrap Matrix™ technology. Commercialization rights of Elepsia™ XR for USA were licensed to Tripoint Therapeutics, subsequently Tripoint Therapeutics initiated the commercialization of Elepsia™ XR.

b) Lipexelle™ technology for ophthalmic formulations

Lipexelle™ technology is a quaternary ammonium preservative/surfactant BAK [Benzalkonium Chloride]-free solubilizing technology. SPARC has developed Xelpros™, a BAK free latanoprost eye drops developed using proprietary Lipexelle™ technology. Xelpros™ is commercialised by Sun Pharmaceutical Industries Limited (SPIL) in the USA.

c) TearAct™ Technology

SPARC has developed PDP – 716 eye drops for treatment of Glaucoma based on its proprietary TearAct™ technology.

SPARC licensed PDP – 716 to Visiox pharma and is currently working with Visiox pharma for filing NDA of PDP-716.

2. BENEFITS DERIVED AS A RESULT OF THE ABOVE R&D

Upon successful development and commercialization of the programs under development it is expected that these programs would help address the unmet medical needs of the patients and provide them better quality of life.

3. FUTURE PLAN OF ACTION

This is covered with the description of each product in [1] above. For more information, please refer to Management Discussion & Analysis (MD&A) section.

SECTION E: PRINCIPLE-WISE PERFORMANCE

Principle 1: Businesses should conduct and govern themselves with Ethics, Transparency and Accountability

SPARC is guided by the values and it aims to pursue growth while keeping responsibilities intact. The focus lies on ensuring organic growth, with a holistic approach. The Company's core values of transparency, integrity, good governance and accountability form the heart of Company's Code of Conduct and it strives to stand by it at all times. The Company believes in adhering to statutory regulations and it helps the Company to retain stakeholders' trust while creating long term value for them.

The following constitute the Company's guiding principles:

a. Leading by example

The responsibility to lead by example lies with the Company's top management and the desire to practice and uphold values and fair business practices is passed on from the top to the bottom of the organisational hierarchy. The Board of Directors plays a key role to set an example for others to follow. The board also emphasises on adherence to compliance norms set by the Company and facilitating mechanism to review and monitor the business responsibility functions of the Company.

b. Abiding by a comprehensive Code of Conduct

The Company has a well-defined Code of Conduct and its directors and employees operate within this framework. A legal and ethical code guides this framework and is designed to intercept misconduct by clearly highlighting certain practices:

- Resolve conflicts ethically, as a priority over personal and professional relationships;
- Ensure safety of confidential information related to the Company or its clients;
- Protect the Company's assets and ensure its proper utilisation;
- Consider all statutory compliances as important;
- Enable reporting of incidents of infringements or non-compliance, following necessary internal processes and procedures

Upholding Governance with Whistle Blower Policy

The Company's Whistle Blower Policy clearly mentions the process for reporting violation, breach, non-compliance, infringement, or infraction of the Code of Conduct. It also precisely states the provision for protection. During the year, no violations to the Code of Conduct were reported.

1. Does the policy relating to ethics, bribery and corruption cover only the Company? Yes/ No. Does it extend to the Group/Joint Ventures/ Suppliers/ Contractors/NGOs /Others?

Yes, the policy extends only to the Company.

2. How many stakeholder complaints have been received in the past financial year and what percentage was satisfactorily resolved by the management? If so, provide details thereof, in about 50 words or so.

The Company had received 1 complaint from a shareholder during the financial year which was satisfactorily resolved.

Principle 2: Business should provide goods and services that are safe and contribute to sustainability throughout their lifecycle.

The Company is consistently trying to find ways to utilise science for improving and enriching human life. The Company's expertise and scientific research capabilities enable it to deliver therapeutic solutions that serve a wide range of patient requirements. Treatment for a broad spectrum of healthcare needs are addressed through its research initiatives. In its journey to ensure better healthcare, the Company remains dedicated to pursue sustainability standards across its processes and practices.

Our quest for sustainability can be explained through the following measures:

- **Lipixelle Technology™** – This technology helps to overcome the challenge of solubilising ophthalmic drugs without the use of Benzalkonium Chloride (BAK). Lipixelle Technology™ helps to remove the use of toxic BAK, which is known to cause ocular surface damage, if used over long time.
- **Wrap Matrix™ Technology** – It is a proprietary oral drug delivery technology, the use of technology helps in reducing the pill size as the drug to excipient ratio is high. This technology is suitable for high solubility - high dose drugs.
- **Phenobarbital formulation** – SPARC has developed novel formulation of phenobarbital for treatment of neonatal seizures. SPARC's formulation does not contain benzyl alcohol. Currently marketed formulations contain benzyl alcohol which is known to cause gasping syndrome in neonates.

Principle 4: Businesses should respect the interests of and be responsive towards all stakeholders, especially those who are disadvantaged, vulnerable and marginalised.

The Company's internal and external stakeholders are classified under the following:

1. Employees
2. Communities
3. Patients
4. Healthcare professionals
5. Payers
6. Regulators
7. Shareholders

The Company is consistently committed to maximise the value creation for its internal as well as external stakeholders. Taking into consideration the expectations of each stakeholder group, deliverables are efficiently mapped, measured and managed to take care of divergent and minority interests. In order to sustain high benchmarks of transparency and accountability, a stakeholder policy has been formulated to ensure involvement of each and every stakeholder in the decision-making process.

1. Has the Company mapped its internal and external stakeholders?

Independent Auditor's Report

To the Members of
Sun Pharma Advanced Research Company Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Sun Pharma Advanced Research Company Limited [the "Company"], which comprise the Balance Sheet as at March 31, 2022, the Statement of Profit and Loss, including the Statement of Other Comprehensive Income, the Statement of Cash Flows and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended [the "Act"] in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its loss including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the

ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements for the financial year ended March 31, 2022. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each key audit matter below, our description of how our audit addressed the matter is provided in that context.

We have determined the matters described below to be the key audit matters to be communicated in our report. We have fulfilled the responsibilities described in the Auditor's responsibilities for the audit of the financial statements section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying financial statements.

Key audit matter	How our audit addressed the key audit matter
(a) Revenue recognition (as described in Note 27 of the financial statements)	
<p>The Company is engaged in the business of Research and Development of pharmaceutical products. The Company has various contractual arrangements with customers which are entered into at various stages of research and development. The Company, in line with Ind AS 115 recognises revenue based on the contractual terms and performance obligations with customers. Some of these arrangements involve judgments which may impact the manner and timing of revenue recognition.</p> <p>Considering that contractual arrangements with customers involve judgments which may impact the manner and timing of revenue recognition, accordingly it is considered as a key audit matter.</p>	<p>Our audit procedures amongst others included the following:</p> <ul style="list-style-type: none"> • Read the accounting policy for revenue recognition of the Company and assessed compliance with the principles enunciated under Ind AS 115. • Evaluated the design and tested the operating effectiveness of management's controls in respect of revenue recognition. • Obtained a sample of contracts and reviewed the terms of the arrangements to determine whether the work performed under the contract qualified for revenue recognition having regard to the performance obligations under the contracts. • Assessed the disclosures in the accompanying financial statements.
Evaluation of direct tax and indirect tax litigations (as described in Note 42 of the financial statements)	
<p>The Company has material direct tax and indirect tax litigations which involve significant judgment to determine the possible outcome of these disputes and accordingly it is considered as key audit matter.</p>	<p>Our audit procedures amongst others included the following:</p> <ul style="list-style-type: none"> • Evaluated the design and tested the operating effectiveness of controls in respect of the identification and evaluation of tax litigations and the recording and reassessment of the related liabilities and provisions and disclosures. • Obtained list of ongoing tax litigations from management along with their assessment of the cases based on past precedents, judgements and matters in the jurisdiction, legal opinions sought by management, correspondences with tax department etc. • Engaged tax specialists, to evaluate management's assessment of the outcome of these litigations. Our specialists considered legal precedence and other rulings in evaluating management's position on these tax litigations. • Assessed contingent liability disclosure in the accompanying financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Management Discussion and Analysis Report and Board's Report, but does not include the financial statements and our auditor's report thereon. The Management Discussion and Analysis Report and Board's Report is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

Responsibilities of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant

deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements for the financial year ended March 31, 2022 and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Accordingly, the requirement to report on clause 3(iii)[a][A] and [B] of the Order are not applicable to the Company.

(iii) [b] During the year the investment made and the terms and conditions of the grant of all loans and advances in the nature of loans to its employees are not prejudicial to the Company's interest. Since, the Company has not provided loans, advances in the nature of loans, stood guarantee or provided security to any other entity, other than to its employees, the requirement to report on clause 3(iii)[b], 3(iii)[c], 3(iii)[d], 3(iii)[e] and 3(iii)[f] of the Order is not applicable to the Company in respect of any entity other than employees.

(iii) [c] The Company has granted loans and advances in the nature of loans during the year to its employees where the schedule of repayment of principal and payment of interest has been stipulated and the repayment/receipts are regular.

(iii) [d] In respect of loans and advances in the nature of loans granted to employees during the year, there are no amounts overdue for more than ninety days. Accordingly, the requirement to report on clause 3(iii)[d] of the order is not applicable.

(iii) [e] In respect of loans and advances in the nature of loans granted to employees, there were no amounts which have fallen due during the year, that have been renewed or extended or fresh loans granted to settle the overdues of existing loans given to the same employees. Accordingly, the requirement to report on clause 3(iii)[e] of the order is not applicable.

(iii) [f] In respect of loans and advances in the nature of loans granted to employees, there were no amounts granted which were either repayable on demand or without specifying any terms or period of repayment. Accordingly, the requirement to report on clause 3(iii)[f] of the Order is not applicable to the Company.

(iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company.

(v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.

(vi) The Central Government has not specified the maintenance of cost records under Section 148(1) of the Companies Act, 2013, for the products/services of the Company and accordingly, the requirement to report on clause 3(vi) of the Order is not applicable to the Company.

(vii) (a) Undisputed statutory dues including goods and service tax, provident fund, employees' state insurance, income-tax, sales-tax, duty of customs, duty of excise, value added tax, cess and other statutory dues, where applicable, have generally been regularly deposited with the appropriate authorities where applicable, though there has been a slight delay in a few cases. According to the information and explanations given to us and based on audit procedures performed by us, no undisputed amounts payable in respect of these statutory dues were outstanding, at the year end, for a period of more than six months from the date they became payable.

(vii) [b] The dues of goods and service tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues, where applicable and which have not been deposited on account of any dispute, are as follows:

Name of the statute	Nature of the dues	Amount involved (₹ in lakhs)	Period to which the amount relates	Forum where the dispute is pending
The Income Tax Act, 1961	Income Tax and Interest	3,738.83	AY 2011-12, AY 2013-14 and AY 2014-15	Commissioner of Income Tax (Appeals)
The Income Tax Act, 1961	Income Tax and Interest*	1,319.35	AY 2015-16, AY 2016-17, AY 2017-18 and AY 2018-19	Commissioner of Income Tax (Appeals)
Finance Act, 1994	Service Tax, Interest and Penalty	6,938.27	April 2016 to June 2017	Custom Excise and Service Tax Appellate Tribunal (CESTAT)

* The disallowances pertaining to AY 2015-16, AY 2016-17, AY 2017-18 and AY 2018-19 will impact the income tax losses assessed by the assessee in these years.

Note: The amounts disclosed above are net of the payments made to the respective authorities where the dispute is pending and includes interest till the date of demand.

- (viii) The Company has not surrendered or disclosed any transaction, previously not recorded in the books of account, in the tax assessments under the Income Tax Act, 1961 as income during the year. Accordingly, the requirement to report on clause 3(viii) of the Order is not applicable to the Company.
- (ix) [a] The Company has not defaulted in repayment of loans or other borrowings or in the payment of interest thereon to any lender.
- (ix) [b] The Company has not been declared wilful defaulter by any bank or financial institution or government or any government authority.
- (ix) [c] Term loans were applied for the purpose for which the loans were obtained.
- (ix) [d] On an overall examination of the financial statements of the Company, no funds raised on short-term basis have been used for long-term purposes by the Company.
- (ix) [e/f] The Company does not have any subsidiary, associate or joint venture. Accordingly, the requirement to report on clause 3[ix][e] and 3[ix][f] of the Order is not applicable to the Company.
- [x] [a] The Company has not raised any money during the year by way of further public offer (including debt instruments). Accordingly, the requirement to report on clause 3[x][a] of the Order is not applicable to the Company.
- [x] [b] The Company has complied with provisions of sections 42 and 62 of the Companies Act, 2013 in respect of the preferential allotment of shares during the year. The funds raised, have been used for the purposes for which the funds were raised.
- [xi] [a] No fraud by the Company or no fraud on the Company has been noticed or reported during the year under audit.
- [xi] [b] During the year, no report under sub-section [12] of section 143 of the Companies Act, 2013 has been filed by secretarial auditors or by us in Form ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules, 2014 with the Central Government.
- [xi] [c] As represented to us by the management, there are no whistle blower complaints received by the Company during the year.
- [xii] The Company is not a Nidhi Company as per the provisions of the Companies Act, 2013. Therefore, the requirement to report on clause 3[xii][a], 3[xii][b] and 3[xii][c] of the Order is not applicable to the Company.
- [xiii] Transactions with the related parties are in compliance with sections 177 and 188 of Companies Act, 2013 where applicable and the details have been disclosed in the notes to the financial statements, as required by the applicable accounting standards.

- [xiv] [a] The Company has an internal audit system commensurate with the size and nature of its business.
- [xiv] [b] The internal audit reports of the Company issued till the date of the audit report, for the period under audit have been considered by us.
- [xv] The Company has not entered into any non-cash transactions with its directors or persons connected with its directors and accordingly the requirement to report on clause 3[xv] of the Order is not applicable to the Company.
- [xvi] [a] The provisions of section 45-IA of the Reserve Bank of India Act, 1934 [2 of 1934] are not applicable to the Company. Accordingly, the requirement to report on clause [xvi][a] of the Order is not applicable to the Company.
- [xvi] [b] The Company has not conducted any Non-Banking Financial or Housing Finance activities without obtaining a valid Certificate of Registration [CoR] from the Reserve Bank of India as per the Reserve Bank of India Act, 1934.
- [xvi] [c] The Company is not a Core Investment Company as defined in the regulations made by Reserve Bank of India. Accordingly, the requirement to report on clause 3[xvi][c] of the Order is not applicable to the Company.
- [xvi] [d] Based on information and explanation provided by the management of the Company, there is no Core Investment Company as a part of the Group, hence, the requirement to report on clause 3[xvi][d] of the Order is not applicable to the Company and hence not reported upon. We have not, however, separately evaluated whether the information provided by the management is accurate and complete.
- [xvii] The Company has incurred cash losses amounting to ₹ 19,392 Lakhs in the current year and amounting to ₹ 14,037 Lakhs in the immediately preceding financial year respectively.
- [xviii] There has been no resignation of the statutory auditors during the year. Accordingly the requirement to report on Clause 3[xviii] of the Order is not applicable to the Company.
- [xix] According to the information and explanation given to us and on the basis of the financial ratios disclosed in note 48 to the financial statements, ageing and expected dates of realization of financial assets and payment of financial liabilities, other information accompanying the financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that Company is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company. We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.
- [xx] The provisions of Section 135 to the Companies Act, 2013 in relation to Corporate Social Responsibility is not applicable to the Company. Accordingly, the requirement to report on clause 3[xx][a] and clause 3[xx][b] of the Order is not applicable to the Company.

Annexure 2 to the Independent Auditor's Report of even date on the financial statements of Sun Pharma Advanced Research Company Limited

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (the "Act")

We have audited the internal financial controls with reference to financial statements of Sun Pharma Advanced Research Company Limited (the "Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ["ICAI"]. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI.

Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls with Reference to these Financial Statements

A Company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A Company's internal financial controls with reference to financial statements includes those policies and procedures that [1] pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the Company; [2] provide reasonable assurance

that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the Company are being made only in accordance with authorisations of management and directors of the Company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the Company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls with Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to these financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India .

Notes to Financial Statements

for the year ended March 31, 2022

1. Corporate Information

Sun Pharma Advanced Research Company Limited ["the Company"] is a public limited company incorporated and domiciled in India and has its listing on the BSE Limited and National Stock Exchange of India Limited. The registered office is located at Plot No. 5 & 6/1, Savli, G. I. D. C. Estate, Manjusar, Vadodara – 391 775. The Company is in the business of research and development (R&D) of pharmaceutical products.

The financial statements were approved for issue in accordance with the resolution of the Board of Directors on May 17, 2022.

2. Significant accounting policies

2.1 Basis of preparation and presentation

The financial statements have been prepared in accordance with Indian Accounting Standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time) and presentation requirement of Division II of Schedule III to the Companies Act, 2013, (Ind AS compliant Schedule III), as applicable to the financial statements.

The financial statements have been prepared on the historical cost basis, except for : (i) certain financial instruments that are measured at fair values at the end of each reporting period (ii) non-current assets classified as held for sale which are measured at the lower of their carrying amount and fair value less costs to sell and (iii) defined benefit plans – plan assets that are measured at fair values at the end of each reporting period, as explained in the accounting policies below.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

The Company has prepared the financial statement on the basis that it will continue to operate as a going concern.

The financial statements are prepared in INR and all values are rounded to the nearest lakhs upto two decimal, except when otherwise stated. The Company has consistently applied the following accounting policies to all periods presented in these financial statements.

For the purpose of these financial statements, previous year means the financial year ended March 31, 2021.

a) Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is :

- Expected to be realised or intended to be sold or consumed in normal operating cycle
- Held primarily for the purpose of trading
- Expected to be realised within twelve months after the reporting period, or
- Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

Notes to Financial Statements

for the year ended March 31, 2022

All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period

The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realisation in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

b) Foreign currencies

The Company's financial statements are presented in INR, which is also the Company's functional currency.

Transactions and balances

On initial recognition, transactions in currencies other than the Company's functional currency (foreign currencies) are translated at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are translated into the functional currency at the exchange rate at that date. Exchange differences arising on the settlement of monetary items or on translating monetary items at rates different from those at which they were translated on initial recognition during the period or in previous period are recognised in statement of profit and loss in the period in which they arise.

Non-monetary items that are measured in terms of historical cost in a foreign currency are not retranslated.

c) Fair value measurement

The Company measures financial instruments, such as, derivatives at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either :

- In the principal market for the asset or liability, or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

Notes to Financial Statements

for the year ended March 31, 2022

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole :

- **Level 1** — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- **Level 2** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- **Level 3** — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Company determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation [based on the lowest level input that is significant to the fair value measurement as a whole] at the end of each reporting period.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

d) Segment reporting

Based on the "Management Approach" as defined in Ind AS 108 - Operating Segment, the Chief Operating Decision Maker (CODM) of the Company is responsible for allocating resources and assessing performance of the operating segments and accordingly is identified as the CODM. Operating segments are reported in a manner consistent with the internal reporting provided to the CODM.

The Company prepares its segment information in conformity with the accounting policies adopted for preparing and presenting the financial statements of the Company as a whole.

e) Property, plant and equipment

Items of property, plant and equipment and other intangible assets are stated in balance sheet at cost net of accumulated depreciation and accumulated impairment losses, if any. Cost directly attributable to acquisition are capitalised until the property, plant and equipment are ready for use, as intended by the management. Subsequent expenditures are capitalised only when they increase the future economic benefits embodied in the specific asset to which they relate.

Capital work in progress is stated at cost, net of accumulated impairment loss, if any.

When parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment. All other repairs and maintenance cost are recognised in the statement of profit and loss account as incurred.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on the disposal or retirement of an item of property, plant and equipment is determined as the difference between the sales proceeds and the carrying amount of property, plant and equipment and is recognised in statement of profit and loss.

Notes to Financial Statements

for the year ended March 31, 2022

Depreciation is calculated on a straight line basis over the estimated useful life of the assets as follows:

Asset category	No. of years
Buildings	60
Plant and equipment	3-25
Vehicles	5
Office equipment	2-5
Furniture and fixtures	10

The Company, based on technical assessment made by technical experts and management estimate, depreciates certain items plant and equipment, vehicle over estimated useful lives which are different from the useful life prescribed in Schedule II to the Companies Act, 2013. The management believes that these estimated useful lives are realistic and reflects fair approximation of the period over which the assets are likely to be used. Depreciation methods, useful lives and residual values are reviewed at the end of each reporting period, with the effect of any changes in estimate accounted for on a prospective basis.

f) Intangible assets

Intangible assets that are acquired by the Company and that have finite useful lives are measured at cost less accumulated amortisation and accumulated impairment losses, if any. Subsequent expenditures are capitalised only when they increase the future economic benefits embodied in the specific asset to which they relate.

Software for internal use, which is primarily acquired from third-party vendors, including consultancy charges for implementing the software, is capitalised. Subsequent costs are charged to the statement of profit and loss as incurred. The capitalised costs are amortised over the estimated useful life of the software i.e. 5 years.

Derecognition of intangible assets

Intangible assets are de-recognised either on their disposal or where no future economic benefits are expected from their use. Any, Gain or loss arising on such de-recognition is recognised in statement of profit and loss and are measured as the difference between the net disposal proceeds, if any, and the carrying amount of respective intangible assets as on the date of de-recognition.

g) Research and development cost

Expenditure on research activities undertaken with the prospect of gaining new scientific or technical knowledge and understanding are recognised as an expense when incurred. Development expenditures on an individual project are recognised as an intangible asset when the Company can demonstrate:

- The technical feasibility of completing the intangible asset so that the asset will be available for use or sale
- Its intention to complete and its ability and intention to use or sell the asset
- How the asset will generate future economic benefits
- The availability of resources to complete the asset
- The ability to measure reliably the expenditure during development

Notes to Financial Statements

for the year ended March 31, 2022

The expenditure to be capitalised include the cost of materials and other costs directly attributable to preparing the asset for its intended use. Other development expenditure is recognised in statement of profit and loss as incurred.

Procurement of research and development materials are issued directly for consumption to the user department and disclosed under cost of materials consumed.

Acquired research and development intangible assets which are under development, are recognised as In-Process Research and Development assets ["IPR&D"]. IPR&D assets are not amortised, but evaluated for potential impairment on an annual basis or when there are indications that the carrying value may not be recoverable. Any impairment charge on such IPR&D assets is recognised in profit and loss. Intangible assets relating to products under development, other intangible assets not available for use and intangible assets having indefinite useful life are tested for impairment annually, or more frequently when there is an indication that the assets may be impaired.

h) Impairment of non-financial assets

The carrying amounts of the Company's tangible and intangible assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated in order to determine the extent of the impairment loss, if any.

The recoverable amount of an asset or cash-generating unit (as defined below) is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or the cash-generating unit for which the estimates of future cash flows have not been adjusted. For the purpose of impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit").

An impairment loss is recognised in the statement of profit and loss if the estimated recoverable amount of an asset or its cash generating unit is lower than its carrying amount. Impairment losses recognised in respect of cash-generating units are allocated to reduce the carrying amount of the other assets in the unit on a pro-rata basis.

In respect of other asset, impairment losses recognised in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

i) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

Financial assets

Initial recognition and measurement-

All financial assets are recognised initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset. Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date.

Notes to Financial Statements

for the year ended March 31, 2022

Subsequent measurement-

For purposes of subsequent measurement, financial assets are classified in three categories:

- i. Debt instruments measured at amortised cost
- ii. Debt instruments measured at fair value through other comprehensive income (FVTOCI)
- iii. Debt instruments measured at fair value through profit or loss (FVTPL)
- iv. Equity instruments are measured at fair value through other comprehensive income (FVTOCI)

A. Debt instruments

- i. Debt instruments measured at amortised cost - A 'debt instrument' is measured at the amortised cost if both the following conditions are met:
 - The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
 - Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included in Other Income in the statement of profit or loss. The losses arising from impairment are recognised in the profit or loss.

- ii. Debt instruments measured at FVTOCI - A 'debt instrument' is measured as at FVTOCI if both of the following criteria are met:
 - The objective of the business model is achieved both by collecting contractual cash flows and selling the financial assets, and
 - The contractual terms of the instrument give rise on specified dates to cash flows that are SPPI on the principal amount outstanding.

Debt instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognised in the other comprehensive income (OCI). However, the Company recognises interest income, impairment losses and reversals and foreign exchange gain or loss in the statement of profit or loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to statement of profit or loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

- iii. Debt instruments measured at FVTPL - FVTPL is a residual category for debt instruments. Any debt instrument, which does not meet the criteria for categorisation as at amortised cost or as FVTOCI, is classified as at FVTPL.

In addition, the Company may elect to designate a debt instrument, which otherwise meets amortised cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Notes to Financial Statements for the year ended March 31, 2022

B. Equity instruments

All equity instruments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present subsequent changes in the fair value in OCI. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVTOCI, then all fair value changes on the instrument, including foreign exchange gain or loss and excluding dividends, are recognised in the OCI. There is no recycling of the amounts from OCI to profit or loss, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognised in the statement of profit or loss.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e. removed from the Company's balance sheet) when:

- The contractual rights to receive cash flows from the asset have expired.
- The Company has transferred its rights to receive contractual cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Company has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortised cost
- b) Trade receivables or any contractual right to receive cash or another financial asset
- c) Loan commitments which are not measured as at FVTPL

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables or any contractual right to receive cash or another financial asset.

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

Notes to Financial Statements

for the year ended March 31, 2022

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

ECL impairment loss allowance [or reversal] recognized during the year is recognized as income/expense in the statement of profit and loss (P&L). This amount is reflected under the head 'other expenses' in the statement of profit or loss. The balance sheet presentation for various financial instruments is described below:

Financial assets measured as at amortised cost, contractual revenue receivables :

ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

Financial liabilities and equity instruments-

Classification as debt or equity

Debt and equity instruments issued by the Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

Equity instruments-

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by the Company are recognised at the proceeds received, net of direct issue costs.

Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in statement of profit or loss on the purchase, sale, issue or cancellation of the Company's own equity instruments.

Initial recognition and measurement-

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

Subsequent measurement-

All financial liabilities are subsequently measured at amortised cost using the effective interest rate method or at FVTPL.

Financial liabilities at fair value through profit or loss-

Financial liabilities are classified as at FVTPL when the financial liability is held for trading or is designated upon initial recognition as at fair value through profit or loss. Financial liabilities are classified as held for trading if they are incurred principally for the purpose of repurchasing in the near term or on initial recognition it is part of a portfolio of identified financial instruments that the Company manages together and has a recent actual pattern of short-term profit-taking. This category also includes derivative entered into by the Company that are not designated and effective as hedging instruments in hedge relationships as defined by Ind AS 109. Gains or losses on liabilities held for trading are recognised in the statement of profit or loss.

Notes to Financial Statements

for the year ended March 31, 2022

Financial liabilities subsequently measured at amortised cost-

Financial liabilities that are not held-for-trading and are not designated as at FVTPL are measured at amortised cost in subsequent accounting periods. The carrying amounts of financial liabilities that are subsequently measured at amortised cost are determined based on the effective interest rate (EIR) method. Interest expense that is not capitalised as part of costs of an asset is included in the finance costs line item in the statement of profit or loss.

After initial recognition, such financial liabilities are subsequently measured at amortised cost using the EIR method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit or loss.

Derecognition-

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference between the carrying amount of the financial liability derecognised and the consideration paid and payable is recognised in statement of profit or loss.

Reclassification of financial assets-

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

j) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Company assesses whether: (i) the contract involves the use of an identified asset (ii) the Company has substantially all of the economic benefits from use of the asset through the period of the lease and (iii) the Company has the right to direct the use of the asset.

Company as a lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Notes to Financial Statements

for the year ended March 31, 2022

i) Right-of-use assets

The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

- Building 3-5 years

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section (h) Impairment of non-financial assets.

ii) Lease liabilities

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Company applies the short-term lease recognition exemption to its short-term leases (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straightline basis over the lease term.

k) Cash and cash equivalents

Cash and cash equivalent in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of 3 months or less which are subject to an insignificant risk of change in value.

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and fixed deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

l) Provisions, contingent liabilities and contingent assets

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an overflow of resources embodying economic benefits will be required

Notes to Financial Statements

for the year ended March 31, 2022

to settle the obligation and a reliable estimate can be made of the amount of obligation. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flow as a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Contingent liabilities and contingent assets-

Contingent liability is disclosed for,

- i. Possible obligations which will be confirmed only by future events not wholly within the control of the Company, or
- ii. Present obligations arising from past events where it is not probable that an outflow of resources will be required to settle the obligation or a reliable estimate of the amount of the obligation cannot be made.

Contingent assets are not recognised in the financial statements unless it becomes virtually certain that an inflow of economic benefits will arise. When an inflow of benefits is probable, contingent assets are disclosed in financial statements.

m) Revenue from operations

Revenue from contracts with customers

Milestone payments and out licensing arrangements

Revenues include amounts derived from product out-licensing agreements. These arrangements typically consist of an initial up-front payment on inception of the license and subsequent payments dependent on achieving certain milestones in accordance with the terms prescribed in the agreement. Non-refundable up-front license fees received in connection with product out-licensing agreements are deferred and recognised over the period in which the Company has continuing performance obligations. Milestone payments which are contingent on achieving certain clinical milestones are recognised as revenues either on achievement of such milestones, if the milestones are considered substantive, or over the period the Company has continuing performance obligations, if the milestones are not considered substantive. If milestone payments are creditable against future royalty payments, the milestones are deferred and released over the period in which the royalties are anticipated to be received.

Research and development services

Revenue from services rendered, which primarily relate to research and development, is recognised in the statement of profit and loss as the underlying services are performed.

Royalties

Royalty revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement [provided that it is probable that economic benefits will flow to the Company and the amount of revenue can be measured reliably]. Royalty arrangements that are based on sales and other measures are recognised by reference to the underlying arrangement.

Dividend

Dividend income is recognised when the Company's right to receive the payment is established, which is generally when shareholders approve the dividend.

Notes to Financial Statements

for the year ended March 31, 2022

Interest income

Interest income from a financial asset is recognised when it is probable that the economic benefits will flow to the Company and the amount of income can be measured reliably. Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable, which is the rate that exactly discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount on initial recognition.

Contract balances

Contract assets

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognised for the earned consideration that is conditional.

Trade receivables

A receivable represents the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognised when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

n) Employee benefits

Defined benefit plans

The Company operates a defined benefit gratuity plan which requires contribution to be made to a separately administered fund.

The liability in respect of defined benefit plans is calculated using the projected unit credit method with actuarial valuations being carried out at the end of each annual reporting period. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds. The currency and term of the government bonds shall be consistent with the currency and estimated term of the post-employment benefit obligations. The current service cost of the defined benefit plan, recognised in the statement of profit and loss as employee benefits expense, reflects the increase in the defined benefit obligation resulting from employee service in the current year, benefit changes, curtailments and settlements. Past service costs are recognised in statement of profit and loss in the period of a plan amendment. The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expense in statement of profit and loss. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to OCI in the period in which they arise and is reflected immediately in retained earnings and is not reclassified to statement of profit and loss.

Notes to Financial Statements

for the year ended March 31, 2022

Termination benefits

Termination benefits are recognised as an expense at the earlier of the date when the Company can no longer withdraw the offer of those benefits and when the entity recognises costs for a restructuring that is within the scope of Ind AS 37 and involves the payment of termination benefits.

Short-term and other long-term employee benefits

Accumulated leave, which is expected to be utilised within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to the statement of profit and loss and are not deferred.

The Company's net obligation in respect of other long term employee benefits is the amount of future benefit that employees have earned in return for their service in the current and previous periods. That benefit is discounted to determine its present value.

Defined contribution plans

The Company's contributions to defined contribution plans are recognised as an expense as and when the services are received from the employees entitling them to the contributions. The Company does not have any obligation other than the contribution made.

o) Borrowing cost

Borrowing costs that are directly attributable to the construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of that asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds.

p) Income tax

Income tax expense consists of current and deferred tax. Income tax expense is recognised in statement of profit and loss except to the extent that it relates to items recognised in OCI or directly in equity, in which case it is recognised in OCI or directly in equity respectively. Current tax is the expected tax payable on the taxable profit for the year, using tax rates enacted or substantively enacted by the end of the reporting period, and any adjustment to tax payable in respect of previous years. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Deferred tax is recognised on temporary differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax bases used in the computation of taxable profit.

Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting period. Deferred tax assets and liabilities are offset if there is a legally enforceable right to set off corresponding current tax assets against current tax liabilities and the deferred tax assets and deferred tax liabilities relate to income taxes levied by the same tax authority on the Company.

Notes to Financial Statements

for the year ended March 31, 2022

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realised. Withholding tax arising out of payment of dividends to shareholders under the Indian Income Tax regulations is not considered as tax expense for the Company and all such taxes are recognised in the statement of changes in equity as part of the associated dividend payment.

Minimum Alternate Tax ('MAT') credit is recognised as deferred tax asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the period for which the MAT credit can be carried forward for set-off against the normal tax liability. MAT credit recognised as an asset is reviewed at each balance sheet date and written down to the extent the aforesaid convincing evidence no longer exists.

Accruals for uncertain tax positions require management to make judgments of potential exposures. Accruals for uncertain tax positions are measured using either the most likely amount or the expected value amount depending on which method the entity expects to better predict the resolution of the uncertainty. Tax benefits are not recognised unless the management, based upon its interpretation of applicable laws and regulations and the expectation of how the tax authority will resolve the matter, concludes that such benefits will be accepted by the authorities. Once considered probable of not being accepted, management reviews each material tax benefit and reflects the effect of the uncertainty in determining the related taxable amounts.

q) Earnings/[loss] per share

The Company presents basic and diluted earnings/[loss] per share ("EPS") data for its equity shares. Basic EPS is calculated by dividing the profit or loss attributable to equity shareholders of the Company by the weighted average number of equity shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to equity shareholders and the weighted average number of equity shares outstanding for the effects of all dilutive potential ordinary shares, which includes all stock options granted to employees.

The number of equity shares and potentially dilutive equity shares are adjusted retrospectively for all periods presented for any share splits and bonus shares issues including for changes effected prior to the approval of the financial statements by the board of directors.

r) Share issue expenses

The Company incurs various costs in issuing or acquiring its own equity instruments. The transaction costs of an equity transaction are accounted for as a deduction from equity to the extent they are incremental costs directly attributable to the equity transaction that otherwise would have been avoided. The costs of an equity transaction that is abandoned are recognised as an expense in the statement of profit and loss.

s) Recent accounting pronouncements

Standards issued but not yet effective and not early adopted by the Company

Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time. The Company has not early adopted any new standards or amendments to the existing standards that has been issued but is not yet effective.

Notes to Financial Statements

for the year ended March 31, 2022

t) Changes in accounting policies and disclosures

New and amended standards

Several amendments and interpretations apply for the first time in March 2022, but do not have an impact on the financial statements of the Company. The Company has not early adopted any standards or amendments that have been issued but are not yet effective.

u) Non-current assets, held for sale

Non-current assets and disposal groups are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use. This condition is regarded as met only when the asset (or disposal group) is available for immediate sale in its present condition subject only to terms that are usual and customary for sales of such asset (or disposal group) and its sale is highly probable. Management must be committed to the sale, which should be expected to qualify for recognition as a completed sale within one year from the date of classification.

Non-current assets (and disposal groups) classified as held for sale are measured at the lower of their carrying amount and fair value less costs to sell. Non-current assets held for sale are not depreciated or amortised.

Total	1,166.49	642.52	1,166.49	642.52

The management assessed that cash and cash equivalents, trade receivables, loans, trade payables, other financial assets and other financial liabilities approximate their carrying amounts largely due to the short-term maturities of these instruments.

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale.

Financial assets and liabilities measured at fair value on a recurring basis at the end of each reporting period

Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the entity can access at the measurement date.

Level 2 inputs are inputs, other than quoted prices included within Level 1, that are observable for the asset or liability, either directly or indirectly.

Level 3 inputs are unobservable inputs for the asset or liability.

There were no transfers between Level 1 and 2 during the years ended March 31, 2022 and March 31, 2021.

NOTE 35

CAPITAL MANAGEMENT

The Company's capital management objectives are:

- to ensure the Company's ability to continue as a going concern; and
- to provide an adequate return to shareholders through optimisation of debts and equity balance.

The Company monitors capital on the basis of the carrying amount of debt less cash and cash equivalents as presented on the face of the financial statements. The Company's objective for capital management is to maintain an optimum overall financial structure.

NOTE 36

FINANCIAL RISK MANAGEMENT

The Company's activities expose it to a variety of financial risks, including market risk, credit risk and liquidity risk. The Company's risk management assessment, policies and processes are established to identify and analyse the risks faced by the Company, to set appropriate risk limits and controls, and to monitor such risks and compliance with the same. Risk assessment, management policies and processes are reviewed regularly to reflect changes in market conditions and the Company's activities.

Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers, loans and investments. Credit risk is managed through credit approvals, establishing credit limits and continuously monitoring the creditworthiness of counterparty to which the Company grants credit terms in the normal course of business. However, the Company does not have any credit risk from financial assets as on balance sheet date.

Notes to Financial Statements

for the year ended March 31, 2022

Investments

The Company limits its exposure to credit risk by generally investing in liquid securities and only with counterparties that have a good credit rating. The Company does not expect any losses from non-performance by these counterparties, and does not have any significant concentration of exposures to specific industry sectors or specific country risks.

Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company manages its liquidity risk by ensuring, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risk to the Company's reputation.

The Company has unutilised working capital lines from banks of ₹ 7,500 Lakhs as on March 31, 2022 (Previous year : ₹ 6,500 Lakhs)

The table below provides details regarding the contractual maturities of significant financial liabilities based on the contractual undiscounted payments :

Market risk

Market risk is the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risk comprises three types of risk: interest rate risk, currency risk and other price risk, such as equity price risk. Financial instruments affected by market risk include investments. The Company has designed risk management frame work to control various risks effectively to achieve the business objectives. This includes identification of risk, its assessment, control and monitoring at timely intervals.

Foreign exchange risk

The Company's foreign exchange risk arises from its foreign operations, foreign currency revenues and expenses, [primarily in US Dollars, Euros]. As a result, if the value of the Indian Rupee fluctuates relative to these foreign currencies, the Company's revenues and expenses measured in Indian Rupees may fluctuate. The exchange rate between the Indian Rupee and these foreign currencies have changed substantially in recent periods and may continue to fluctuate substantially in the future.

b) Sensitivity

For the years ended March 31, 2022 and March 31, 2021, every 5% strengthening in the exchange rate between the Indian Rupee and the respective currencies for the above mentioned financial assets / liabilities would decrease the Company's loss and increase the Company's equity by approximately ₹ 206.83 Lakhs and ₹ 376.05 Lakhs respectively. A 5% weakening of the Indian rupee and the respective currencies would lead to an equal but opposite effect.

Interest rate risk

The Company has no loan facilities on floating interest rate, which exposes the Company to risk of changes in interest rates. The Company's exposure to interest rate risk is not significant.

Commodity rate risk

The Company being in the business of Research & Development, does not face any significant Commodity Price Risk.

EMPLOYEE BENEFIT PLANS

Defined contribution plan

Contributions are made to Regional Provident Fund (RPF), Family Pension Fund, Employees State Insurance Scheme (ESIC) and other funds which covers all regular employees. While both the employees and the Company make predetermined contributions to the Provident Fund and ESIC, contribution to the Family Pension Fund and other statutory funds are made only by the Company. The contributions are normally based on a certain percentage of the employee's salary. Amount recognised as expense in respect of these defined contribution plans, aggregate to ₹ 387.58 Lakhs [Previous year : ₹ 365.27 Lakhs].

Defined benefit plan

a) Gratuity

In respect of Gratuity, a defined benefit plan, contributions are made to LIC's Recognised Group Gratuity Fund Scheme. It is governed by the Payment of Gratuity Act, 1972. Under the Gratuity Act, employees are entitled to specific benefit at the time of retirement or termination of the employment on completion of five years or death while in employment. The level of benefit provided depends on the member's length of service and salary at the time of retirement/termination age. Provision for gratuity is based on actuarial valuation done by an independent actuary as at the year end. Each year, the Company reviews the level of funding in gratuity fund. The Company decides its contribution based on the results of its annual review. The Company aims to keep annual contributions relatively stable at a level such that the fund assets meets the requirements of gratuity payments in short to medium term.

b) Other long term benefit plan

Actuarial valuation for compensated absences is done as at the year end and the provision is made as per Company rules with corresponding charge to the statement of profit and loss amounting to ₹ 161.63 Lakhs [Previous year : ₹ 204.28 Lakhs] and it covers all regular employees. Major drivers in actuarial assumptions, typically, are years of service and employee compensation.

Obligation in respect of defined benefit plan and other long term employee benefit plans are actuarially determined as at the year end using the 'Projected Unit Credit' method. Gains and losses on changes in actuarial assumptions relating to defined benefit obligation are recognised in other comprehensive income whereas gains and losses in respect of other long term employee benefit plans are recognised in the statement of profit and loss.

Contract assets are initially recognised for revenue from sale of goods. Contract liabilities are on account of the upfront revenue received from customer for which performance obligation has not yet been completed. The performance obligation is satisfied when control of the goods or services are transferred to the customers based on the contractual terms. Payment terms with customers vary depending upon the contractual terms of each contract.

The Company has recorded an additional amount of ₹ 2,760.25 Lakhs [Previous year : ₹ NIL] as deferred revenue pursuant to the requirements of Ind AS 115.

NOTE 45

USE OF ESTIMATES AND JUDGEMENTS

The preparation of the Company's financial statements requires the management to make judgements, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimates are revised and in any future periods affected. In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognised in the financial statements is included in the following notes:

- 1 Provisions [Refer Note 20 and 26]
- 2 Contingent liabilities [Refer Note 42]
- 3 Financial risk management [Refer Note 36]

NOTE 46

There are 9 struck off companies holding 4,801 shares of the Company in aggregate as at March 31, 2022 and March 31, 2021.

- (b) the Securities shall not be eligible to be sold by the allottees for a period of 1 year from the date of allotment, except on a recognized stock exchange, or except as may be permitted under the SEBI ICDR Regulations;
- (c) the relevant date for the purpose of pricing of the Securities shall be the date of the meeting in which the Board decides to open the QIP and at such price being not less than the price

determined in accordance with the pricing formula provided under Chapter VI of the SEBI ICDR Regulations;

- (d) no single allottee shall be allotted more than 50% of the proposed QIP size and the minimum number of allottees shall be two, where the issue size is less than or equal to ₹ 250 crores and five, where the issue size is greater than ₹ 250 crores, in accordance with Chapter VI of the SEBI ICDR Regulations;
- (e) in the event that convertible securities and/or warrants which are convertible into Equity Shares of the Company are issued along with nonconvertible debentures to QIBs under Chapter VI of the SEBI ICDR Regulations, the relevant date for the purpose of pricing of such securities, shall be the date of the meeting in which the Board (or relevant committee thereof) decides to open the issue of such convertible securities and/or warrants simultaneously with non-convertible debentures or any other date in accordance with applicable law and such Securities shall be issued at such price being not less than the price determined in accordance with the pricing formula provided under Chapter VI of the SEBI ICDR Regulations; and
- (f) the Board may, in accordance with applicable law, also offer a discount of not more than 5% or such percentage as permitted under applicable law on the price calculated in accordance with the pricing formula provided under the SEBI Regulations.

RESOLVED FURTHER THAT if any issue of Securities is made by way of a rights issue to the existing shareholders of the Company as on a record date to be determined, including reservation of Equity Shares in favour of holders of outstanding convertible debt instruments, if any, as on a record date to be determined, in terms of Chapter III of the SEBI ICDR Regulations ("Rights Issue"), the same shall be on such other terms and conditions as may be mentioned in the draft letter of offer and letter of offer to be issued by the Company in respect of the Rights Issue, including:

- (a) rights to the existing shareholders to whom the offer is made to renounce, the Equity Shares being offered, in favour of any other person(s);
- (b) the persons to whom the Equity Shares are being issued shall be entitled to apply for additional Equity Shares in the Rights Issue;

(c) the manner in which allotment of the additional Equity Shares, if any, shall be made in the proportion to be decided by the Board at its discretion;

(d) the Securities to be so created, offered, issued, and allotted shall rank pari passu in all respects with the existing Securities, if any, of the Company and shall be subject to the provisions of the Memorandum of Association and the Articles of Association of the Company;

(e) the Board may dispose of the unsubscribed portion in such manner as it may think most beneficial to the Company;

(f) all monies received out of Rights Issue shall be transferred to a separate bank account maintained by the Company for the purpose of the Rights Issue;

(g) the Company shall utilize the monies received pursuant to the Rights Issue upon a confirmation from the lead manager(s) to the bankers by way of copies of listing and trading approvals that all formalities in connection with the issue have been completed, in accordance with the provisions of the SEBI ICDR Regulations and other applicable laws;

(h) details of all monies utilised out of the Rights Issue referred to in (g) hereinabove shall be disclosed under an appropriate separate head in the balance sheet of the Company indicating the purpose for which such monies had been utilized, or in any other manner as may be required under the applicable laws; and

(i) details of all unutilised monies out of the Rights Issue, if any, shall be disclosed under an appropriate separate head in the balance sheet of the Company indicating the form in which such unutilised monies have been invested, or in any other manner as may be required under the applicable laws.

RESOLVED FURTHER THAT the issue to the holders of the Securities, which are convertible into or exchangeable with Equity Shares at a later date shall be, inter alia, subject to the following terms and conditions:

- (a) in the event the Company is making a bonus issue by way of capitalization of its profits or reserves prior to the allotment of the Equity Shares, the number of Equity Shares to be allotted shall stand augmented in the same proportion in

which the equity share capital increases as a consequence of such bonus issue and the premium, if any, shall stand reduced pro tanto;

- (b) in the event the Company is making a rights offer by issue of Equity Shares prior to the allotment of the Equity Shares, the entitlement to the Equity Shares will stand increased in the same proportion as that of the rights offer and such additional Equity Shares shall be offered to the holders of the Securities at the same price at which the same are offered to the existing shareholders;
- (c) in the event of merger, amalgamation, takeover or any other re-organization or restructuring or any such corporate action, if and as required, the number of Equity Shares, the price and the time period as aforesaid shall be suitably adjusted; and
- (d) in the event of consolidation and/or division of outstanding Equity Shares into smaller number of Equity Shares (including by way of stock split) or re-classification of the Securities into other securities and/or involvement in such other event or circumstances which in the opinion of concerned stock exchange requires such adjustments, necessary adjustments will be made.

RESOLVED FURTHER THAT in pursuance of the aforesaid resolutions the Equity Shares that may be issued by the Company (including issuance of the Equity Shares pursuant to conversion of any Securities, as the case may be in accordance with the terms of the offering) shall rank pari passu with the existing equity shares of the Company in all respects.

RESOLVED FURTHER THAT in the event the Securities are proposed to be issued as ADRs or GDRs, the relevant date for the purpose of pricing the Securities shall be the date of the meeting in which the Board decides to open the issue of such Securities in accordance with the Depository Receipts Scheme, 2014 (including any amendment or replacement/substitution thereof) and other applicable pricing provisions issued by the Ministry of Finance.

RESOLVED FURTHER THAT in the event the Securities are proposed to be issued as FCCBs, the relevant date for the purpose of pricing the Securities shall be the date of the meeting in which the Board decides to open the issue of such Securities in accordance with the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through the Depository Receipt Mechanism) Scheme, 1993 (including any

amendment or replacement/substitution thereof) and other applicable pricing provisions issued by the Ministry of Finance.

RESOLVED FURTHER THAT in pursuance of the aforesaid resolutions the Securities to be so created, offered, issued and allotted shall be subject to the provisions of the Memorandum of Association and Articles of Association of the Company.

RESOLVED FURTHER THAT for the purpose of giving effect to any creation, offer, issue or allotment of Equity Shares and/ or Securities or instruments representing the same, the Board be and is hereby authorised on behalf of the Company to seek listing of any or all of such Securities, on one or more Stock Exchanges in India or outside India and the listing of Equity Shares underlying the ADRs and/or GDRs on the Stock Exchanges in India.

RESOLVED FURTHER THAT without prejudice to the generality of the above, subject to applicable laws and subject to approval, consents, permissions, if any, of any governmental body, authority or regulatory institution including any conditions as may be prescribed in granting such approval or permissions by such governmental authority or regulatory institution, the aforesaid Securities may have such features and attributes or any terms or combination of terms that provide for the tradability and free transferability thereof in accordance with the prevailing practices in the capital markets including but not limited to the terms and conditions for issue of additional Securities and the Board subject to applicable laws, regulations and guidelines be and is hereby authorized in its absolute discretion in such manner as it may deem fit, to dispose of such Securities that are not subscribed.

RESOLVED FURTHER THAT for the purpose of giving effect to the above resolutions, the Board be and is hereby authorized to negotiate, modify, sign, execute, register, deliver including sign any declarations required in connection with the private placement offer letter, information memorandum, draft prospectus, prospectus, the draft offer document, application form, Confirmation Allocation Note ("CAN"), abridged prospectus, offer letter, offer document, offer circular, preliminary placement document or placement document for issue of the Securities, term sheet, issue agreement, registrar agreement, escrow agreement, underwriting agreement, placement agreement, consortium agreement, trustee agreement, trust deed, subscription agreement, purchase agreement, agency agreement, agreements with the depositories,

Explanatory Statement pursuant to Section 102(1) of the Companies Act, 2013 and additional information as required under the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

The following Explanatory Statement sets out material facts relating to the business set out at Item Nos. 3 to 7 of the accompanying Notice.

Item No. 3

The members of the Company at the 12th Annual General Meeting, had approved the appointment of S R B C & Co. LLP, ["SRBC"] Chartered Accountants [Firm's Registration No. 324982E / E300003] as the Statutory Auditors of the Company for a term of 5 [five] consecutive years to hold office until the conclusion of the 17th Annual General Meeting of the Company at such remuneration as may be fixed by the Board of Directors of the Company in consultation with them.

Under the provisions of Section 139(2) of the Companies Act, 2013 [the 'Act'], the Company is permitted to appoint the aforementioned Statutory Auditors (being an audit firm) for one more term of 5 [five] consecutive years.

Basis various parameters such as industry experience, credibility, efficiency in conduct of audit, independence, etc., the Board of Directors of the Company, based on the recommendation of the Audit Committee, at its meeting held on May 17, 2022, has proposed to the members of the Company re-appointment of SRBC, Chartered Accountants, [Firm's Registration No. 324982E / E300003] as the Statutory Auditors for a second term of 5 [five] consecutive years to hold office from the conclusion of this 17th Annual General Meeting till the conclusion of 22th Annual General Meeting of the Company, at such remuneration as may be fixed by the Board of Directors in consultation with them.

SRBC has consented to act as Statutory Auditors and have confirmed that their appointment, if made, will be in accordance with Section 139 read with Section 141 of the Act and the rules made thereunder. SRBC has also confirmed, that they have subjected themselves to the peer review process of the Institute of Chartered Accountants of India [ICAI] and holds a valid certificate issued by the 'Peer Review Board' of the ICAI.

The Board recommends the Resolution as set out at item no. 3 of the Notice for approval of the Members as an Ordinary Resolution.

None of the Directors or Key Managerial Personnel or their relatives are in anyway concerned or interested in the resolution as set out in Item no. 3 of the Notice.

Item No. 4

To approve revision in terms of Line of Credit availed from Shanghvi Finance Private Limited

The members at the 15th Annual General Meeting held on September 30, 2020, had considered, ratified and approved an unsecured line of credit facility of upto Rs.200 crores at Interest Rate of 10.5% p.a. from Shanghvi Finance Private Limited [CIN: U65910MH1989PTC053111], the Holding Company and a Related Party of the Company to meet the working capital requirements of the Company. Further, at the 16th Annual General Meeting held on September 29, 2021 the members of the Company had ratified and approved changes in the terms of said line of credit facility whereby the facility amount was revised from Rs. 200 crores to Rs. 250 crores and the rate of interest was revised [i] from 10.50% to 9.75% per annum with effect from October 01, 2020 and [ii] from 9.75% to 8.00% per annum with effect from April 01, 2021. Considering the changes in financial markets, from time to time, and looking at the proposed tenure of 5 years, it may be considered as a good practice to link the interest rate to some relevant benchmark like State Bank of India - Marginal Cost of Funds-based Lending Rate [SBI-MCLR]. Accordingly, approval of the shareholders is being sought to link the rate of interest with a transparent benchmark i.e. the rate of interest be revised to a rate which does not exceed prevailing SBI-MCLR + 250 basis points, subject to arm's length pricing. The Audit Committee and the Board of Directors at their respective meetings held on August 08, 2022 have considered, approved and have recommended the same to the members of the Company for their approval.

Information pursuant to SEBI Circular No. SEBI/HO/CFD/CM1/CIR/P/2021/662 dated November 22, 2021 and the Act, including terms and conditions, are given below:

Sr. No.	Particulars	Details
1	Name of the related party and its relationship with the listed entity or its subsidiary, including nature of its concern or interest (financial or otherwise)	Name of the Related Party: Shanghvi Finance Private Limited (SFPL) Relationship: SFPL is a holding company of the Company (50.47%)
2	Type, material terms and particulars of the proposed transaction	Presently, the Company has a Line of Credit of ₹ 250 crores at the rate of 8% p.a. [rate effective from April 01, 2022] from SFPL. The said transaction was approved / ratified by the shareholders at the 16th AGM of the Company. In the current resolution, existing 8% p.a. rate of interest is proposed to be revised to a rate which does not exceed prevailing SBI-MCLR + 250 basis points, subject to arm's length pricing.
3	Tenure of the proposed transaction [particular tenure shall be specified]	The Company shall have the Line of Credit for a further period of 5 [five] years [i.e. from the conclusion of this 17th AGM till conclusion of 22nd AGM]
4	Value of the proposed transaction	Principal - The principal amount withdrawn under the Line of Credit shall not exceed an amount of Rs. 250 Crores (Rupees Two Hundred and Fifty Crores only), outstanding at any point in time. Interest – Not to exceed prevailing SBI-MCLR plus 250 basis points, subject to arm's length pricing
5	The percentage of the listed entity's annual consolidated turnover, for the immediately preceding financial year, that is represented by the value of the proposed transaction (and for a RPT involving a subsidiary, such percentage calculated on the basis of the subsidiary's annual turnover on a standalone basis shall be additionally provided)	~ 180% [calculated on the basis of principal value i.e. Rs 250 crores]
6	Any advance paid or received for the contract or arrangement, if any	Not applicable
7	The manner of determining the pricing and other commercial terms, both included as part of contract and not considered as part of the contract	The pricing / commercial terms are determined on arm's length basis
8	Whether all factors relevant to the contract have been considered, if not, the details of factors not considered with the rationale for not considering those factors	Yes
9	Name of the director or key managerial personnel who is related, if any	Mr. Dilip S. Shanghvi Mr. Sudhir V. Valia
10	Justification as to why the RPT is in the interest of the listed entity	SFPL is a non-banking finance company and providing a line of credit facility is in its ordinary course of business. The Company, to carry out its research and other business activities, requires funds from time to time. Having a line of credit facility from SFPL will benefit the Company with timely disbursements and at the competitive rate. Therefore, in the opinion of the Board, the transaction is in the best interest of the Company.

Sr. No.	Particulars	Details

Pursuant to regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 all material related party transactions requires approval of the members in which the related parties shall not vote to approve the transaction. The above facility would exceed the threshold limit of 'materiality' as per Related Party Transaction Policy of the Company and Regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and accordingly it is proposed for approval by the members of the Company. The related parties shall not vote to approve this transaction.

In the opinion of the Board proposed revision in the rate of interest is in line with the market practices and in the interest of the Company. The Board recommends the Resolution as set out at item no.4 of the Notice for approval by the Members as an Ordinary Resolution.

Mr. Dilip S. Shanghvi, Chairman & Non-Executive Director, Mr. Sudhir V. Valia, Non-Executive Director, and their relatives are deemed to be interested in the proposed resolution. Other than Mr. Dilip S Shanghvi, Mr. Sudhir V Valia, and their relatives, none of the other Directors or Key Managerial Persons or their relatives are concerned or interested financially or otherwise in the proposed resolution.

Item No. 5

To approve continuation of transactions with Sun Pharmaceutical Industries Inc., USA under Shared Service Agreement:

The members of the Company at their 12th Annual General Meeting held on August 05, 2017, gave approval for entering into transactions pursuant to the Shared Service Agreement under which Sun Pharmaceutical

Industries Inc. USA (SPI Inc.), has agreed to allow the Company to avail the services of certain identified employees of SPI Inc to manage the affairs of the Company in United States of America.

Basis the above approval, the Company is entering into the transactions with SPI Inc. from time to time. Since this is continual and ongoing nature of the arrangement and was earlier approved by the shareholders at the Annual General Meeting held on August 05, 2017 and as no maximum term for entering into the aforesaid transaction was sought or specified by the members while approving the above transactions, it was decided

to voluntarily put up the proposal for continuation of the arrangement, for the approval of the members after every five years, as a measure of good Corporate Governance and accordingly the approval of the members is sought for continuing of transactions with SPI Inc for a further period of 5 years.

Information pursuant to SEBI Circular No. SEBI/HO/CFD/CM1/CIR/P/2021/662 dated November 22, 2021 and the Act, including terms and conditions, are given below:

Sr. No.	Particulars	Details
1	Name of the related party and its relationship with the listed entity or its subsidiary, including nature of its concern or interest (financial or otherwise)	Name of the Related Party: Sun Pharmaceutical Industries Inc., USA (SPI Inc.) Relationship: SPI Inc is a wholly owned subsidiary of Sun Pharmaceutical Industries Limited where promoter of the Company is a promoter.
2	Type, material terms and particulars of the proposed transaction	Based on the Company's requirements, the Company may utilise the services of certain identified employees of SPI Inc. from time to time, for various research and development activities and other support services to manage the affairs of the Company in United States of America in its ordinary course of business. In consideration of the services provided by such identified employees of SPI Inc., the Company shall reimburse SPI Inc. proportionate employee cost based on actual man hours spent by such identified employees towards providing such services to the Company along with a suitable mark-up, to be decided on arm's length basis.
3	Tenure of the proposed transaction (particular tenure shall be specified)	5 (five) years [i.e. from FY 23 till FY 27]
4	Value of the proposed transaction	FY 23 – upto ₹ 80 crores FY 24 – upto ₹ 85 crores FY 25 – upto ₹ 90 crores FY 26 – upto ₹ 95 crores FY 27 – upto ₹ 100 crores
5	The percentage of the listed entity's annual consolidated turnover, for the immediately preceding financial year, that is represented by the value of the proposed transaction (and for a RPT involving a subsidiary, such percentage calculated on the basis of the subsidiary's annual turnover on a standalone basis shall be additionally provided)	~ 58 % (calculated basis the proposed transaction value for FY 23)

Item No. 6

To approve continuation of transactions with Sun Pharmaceutical Industries Inc., USA under Master Support Services Agreement

The members of the Company at their 12th Annual General Meeting held on August 05, 2017, gave approval for entering into transactions pursuant to the Master Support Services Agreement under which Sun Pharmaceutical Industries Inc., (SPI Inc.), and the Company have agreed for rendering / availing of certain range of research & development activities and other ancillary support services between each other.

Basis the above approval, the Company is entering into the transactions with SPI Inc. from time to time. Since this is continual and ongoing nature of the arrangement and was earlier approved by the shareholders at the Annual General Meeting held on August 05, 2017 and as no maximum term for entering into the aforesaid transaction was sought or specified by the members while approving the above transactions, it was decided to voluntarily put up the proposal for continuation of the arrangement, for the approval of the members after every five years, as a measure of good Corporate Governance and accordingly the approval of the members is sought for continuing of transactions with SPI Inc. for a further period of five years.

Information pursuant to SEBI Circular No. SEBI/HO/CFD/CM1/CIR/P/2021/662 dated November 22, 2021 and the Act, including terms and conditions are given below:

Sr. No.	Particulars	Details
1	Name of the related party and its relationship with the listed entity or its subsidiary, including nature of its concern or interest [financial or otherwise]	Name of the Related Party: Sun Pharmaceutical Industries Inc., USA (SPI Inc.) Relationship: SPI Inc. is a wholly owned subsidiary of Sun Pharmaceutical Industries Limited where promoter of the Company is a promoter.
2	Type, material terms and particulars of the proposed transaction	Based on requirements from time to time, either party may request the other party to provide certain range of research and development activities and other support services in its ordinary course of business, on various terms and conditions which are on arm's length basis. In consideration of the services provided by performing party to receiving party, receiving party shall pay to performing party such amount as may be determined in accordance with the arm's length principles under the Transfer Pricing Regulations, which shall consist of the fully absorbed internal costs incurred by performing party in providing the services plus a mark-up of up to thirty percent [30%].
3	Tenure of the proposed transaction [particular tenure shall be specified]	5 [five] years [i.e. from FY 23 till FY 27]
4	Value of the proposed transaction	FY 23 – upto ₹ 20 crores FY 24 – upto ₹ 25 crores FY 25 – upto ₹ 30 crores FY 26 – upto ₹ 35 crores FY 27 – upto ₹ 40 crores
5	The percentage of the listed entity's annual consolidated turnover, for the immediately preceding financial year, that is represented by the value of the proposed transaction (and for a RPT involving a subsidiary, such percentage calculated on the basis of the subsidiary's annual turnover on a standalone basis shall be additionally provided)	~ 15 % [calculated basis the proposed transaction value for FY 23]
6	Any advance paid or received for the contract or arrangement, if any	Not Applicable
7	The manner of determining the pricing and other commercial terms, both included as part of contract and not considered as part of the contract	In consideration of the services provided by performing party to receiving party, receiving party shall pay to performing party such amount as may be determined in accordance with the arm's length principles under the Transfer Pricing Regulations, which shall consist of the fully absorbed internal costs incurred by performing party in providing the services plus a mark-up of up to thirty percent [30%]

9	Name of the director or key managerial personnel who is related, if any	Mr. Dilip S. Shanghvi Mr Sudhir V. Valia

Sr. No.	Particulars	Details
10	Justification as to why the RPT is in the interest of the listed entity	The Company being in the business of Research and Development may need external support to carry out its research activities from time to time. Similarly, SPI Inc. being in pharma business may need external support for its business activities. The "Master" form of Contract, allows the parties to contract for multiple/ periodic assignments [as and when required] through the issuance of multiple Statement of Work ["SOW"] without having to re-negotiate the basic terms and conditions again and again and hence would be in the interest of both the parties.
11	<p>If the transaction relates to any loans, inter-corporate deposits, advances or investments made or given by the listed entity or its subsidiary:</p> <p>(i) details of the source of funds in connection with the proposed transaction</p> <p>(ii) where any financial indebtedness is incurred to make or give loans, inter-corporate deposits, advances or investments,</p> <ul style="list-style-type: none"> • nature of indebtedness; • cost of funds; and • tenure; <p>(iii) applicable terms, including covenants, tenure, interest rate and repayment schedule, whether secured or unsecured; if secured, the nature of security the purpose for which the funds will be utilized by the ultimate beneficiary of such funds pursuant to the RPT</p>	Not applicable
12	A statement that the valuation or other external party report, if any such report has been relied upon by the listed entity in relation to the proposed transaction will be made available through the registered email address of the shareholders	Not applicable
13	Percentage of the counter-party's annual consolidated turnover that is represented by the value of the proposed RPT on a voluntary basis	--
14	Any other information that may be relevant	<p>Performing party shall make available sufficient quantities of materials to carry out the service(s) at the cost of receiving party or such cost sharing mechanism as may be mutually agreed from time to time in connection with the particular SOW.</p> <p>The receiving party shall grant the performing party and its authorized representatives and/or agents a limited non-exclusive, non-transferable, revocable license to use the technical information and intellectual property rights for the purpose of rendering services under the contract and the respective SOW. The license shall be royalty-free, unless otherwise agreed in writing between the parties.</p>

Pursuant to Regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 all material Related Party Transactions requires approval of the members in which the related parties shall not vote to approve the transaction. The transactions to be entered into by the Company pursuant to the Master Support Services Agreement may exceed the threshold limit of 'Materiality' as per Related Party Transaction Policy of the Company and Regulation 23(4) of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 and accordingly it is proposed for approval by the members of the Company. The related parties shall not vote to approve this transaction. Copy of the draft Master Support Services Agreement is available for inspection by any member as detailed in point no. 14 of Notes to this Notice.

In the opinion of the Board entering into transactions pursuant to the above is in the best interest of the Company. The Board recommends the Resolution as set out at item no. 6 of the Notice for approval of the members as an Ordinary Resolution.

Mr. Dilip S Shanghvi, Chairman & Non-Executive Director, Mr. Sudhir V Valia, Non-Executive Director and their relatives are deemed to be interested in the Agreement. Other than Mr. Dilip S. Shanghvi, Mr. Sudhir V. Valia and their relatives, none of the other Directors or Key Managerial Persons or their relatives are concerned or interested financially or otherwise in the proposed resolution.

Item No. 7

To approve raising of funds through equity shares, convertible warrants, preference shares/ bonds / debentures /any other instruments whether convertible into equity or not, American Depository Receipts ["ADRs"], Global Depository Receipts ["GDRs"], Foreign Currency Convertible Bonds ["FCCBs"], etc.

In view of the future outlook of the Company, its growth targets and prospects, the Company would require additional funding. While it is expected that the internal generation of funds would partially finance the need for capital but, it is thought prudent for the Company to have enabling approval to raise funds through the issue of appropriate securities as mentioned below.

An enabling Resolution in this regard was passed by the shareholders at the 16th Annual General Meeting held on September 29, 2021, for ₹ 1800 crore [Rupees One Thousand Eight Hundred crore] which was valid for 365 days. No amount was raised by the Company pursuant to the said enabling Resolution. Since, the expiry date of the

aforesaid approval from shareholders is approaching, the Board of Directors ["Board"] of the Company in its meeting held on August 08, 2022 decided to seek a fresh approval from the shareholders on the fund raising for the same amount, as also to have the flexibility in timing of raising of funds as and when it is required, and approved the raising of capital by the Company through further public offer or issuance of American Depository Receipts / Global Depository Receipts / Foreign Currency Convertible Bonds or qualified institutions placement or through a combination thereof, as may be considered appropriate, subject to requisite approvals.

In order to enable the Company to raise funds through a public issue and/or private offering and/or rights offering and/or qualified institutions placement or any combination thereof, the approval of the Members is hereby sought for the proposal to create, offer, issue and allot equity shares of the Company of face value of ₹ 1/- each ["Equity Shares"] convertible warrants, preference shares/ bonds /debentures /any other instruments whether convertible into equity or not, American Depository Receipts ["ADRs"], Global Depository Receipts ["GDRs"], Foreign Currency Convertible Bonds ["FCCBs"], or any other securities [collectively referred to as "Securities"] or any combination of Securities, in one or more tranches, to eligible investors, whether they being existing shareholders or not, as may be decided by the Board in its discretion and permitted under applicable laws, for an aggregate consideration of up to ₹ 1,800 Crores [Rupees One Thousand Eight Hundred Crores only] or equivalent thereof, in one or more currency(ies).

As the issue may result in the issue of Equity Shares of the Company to investor(s) who may or may not be members of the Company, consent of the members is being sought pursuant to Section 62(1)(c) and other applicable provisions, if any, of the Companies Act, 2013 ["Act"], the Securities and Exchange Board of India [Issue of Capital and Disclosure Requirements] Regulations, 2018 ["SEBI ICDR Regulations"], the Securities and Exchange Board of India [Listing Obligations and Disclosure Requirements] Regulations, 2015 ["SEBI Listing Regulations"] and any other law for the time being in force and being applicable.

In case of issuance of securities through a qualified institutions placement ["QIP"], in terms of Chapter VI of the SEBI ICDR Regulations, an issue of securities pursuant to a QIP shall be made at a price not less than the average of the weekly high and low of the closing prices of the equity shares of the same class quoted on the stock exchange during the two weeks preceding the "relevant date." The relevant date for the purpose

of pricing of the securities shall be the date of the meeting in which the Board decides to open the QIP and at such price being not less than the price determined in accordance with the pricing formula provided under Chapter VI of the SEBI Regulations. In case of a QIP, the special resolution has a validity period of 365 within which allotments under the authority of said resolution should be completed.

In case of issuance of ADRs or GDRs, the relevant date for the purpose of pricing the Securities shall be the date of the meeting in which the Board decides to open the issue of such Securities in accordance with the Depository Receipts Scheme, 2014 and other applicable pricing provisions issued by the Ministry of Finance.

In case of issuance of FCCBs, the relevant date for the purpose of pricing the Securities shall be the date of the meeting in which the Board decides to open the issue of such Securities in accordance with the Issue of Foreign Currency Convertible Bonds and Ordinary Shares (through Depository Receipt Mechanism) Scheme, 1993 and other applicable pricing provisions issued by the Ministry of Finance.

The issue / allotment / conversion would be subject to the receipt by the Company of regulatory approvals, if any. The conversion of Securities held by foreign investors, into Equity Shares would be subject to the applicable foreign investment cap.

The proceeds of the proposed issue of Securities shall be utilized for any of the purposes as may be decided by the Board, subject to applicable laws. The Resolution at Item No. 7 is an enabling resolution conferring authority on the Board to do all acts and deeds, which may be required to issue/offer Securities of appropriate nature at appropriate time, including the size, structure, price and timing of the issue(s) /offer(s) at the appropriate time(s). The detailed terms and conditions for the domestic/international offering will be determined in consultation with the lead managers, merchant bankers, global business coordinators, guarantors, consultants, advisors, underwriters and/or such other intermediaries as may be appointed for the issue/offer. Wherever necessary and applicable, the pricing of the issue/ offer will be finalized in accordance with applicable guidelines in force. As and when the Board takes a

decision on matters on which it has the discretion, necessary disclosures will be made to the relevant stock exchanges on which the Equity Shares are listed under the provisions of the SEBI Listing Regulations.

In case the securities to be issued are Debentures or any other debt instruments then in such case the resolution passed herein above shall also be treated as the approval for the limits in terms of 180[1](a) and 180[1](c) of the Companies Act, 2013 and the existing limits under the said sections approved by the members of the Company at their extra ordinary general meeting held on April 26, 2021 shall not in any case be affected.

The Directors accordingly recommend this resolution at Item No. 7 of the Notice for the approval of the Members of the Company as an enabling special resolution.

None of the Directors or Key Managerial Personnel of the Company and / or their relatives are concerned or interested, financially or otherwise, in the proposed resolution except to the extent of his/her holding of Equity Shares and to the extent of his/her subscribing to Equity Shares if and when issued as also to the extent of subscription by a financial institution/ company/body corporate in which the KMPs, Director or his/her relative may be directly or indirectly interested.
